## SENIOR CLASS WINS ANNUAL CONTEST IN ORATORY

### Paul Hutchinson Awarded First Prize; Student Spirit Is Much In Evidence

The oratorical contest last night at Glendale Union High school was won by the senior class.

First prize, a twenty dollar gold piece, was awarded to Paul Hutchinson, son of Mr. and Mrs. C. E. Hutchinson of 246 North Orange street, whose oration was entitled "The Trend of Civilization."

The moon looked down upon an enthusiastic scene. Class spirit was the keynote of the occasion. Each class endeavored to outsing and out yell its competitors. While awaiting the announcement of the judge's decision, all four classes were "going" at once. The class, which made the most noise, was the one closest to each member of the audience.

A lighthouse made of leaves and flashing a beacon light representing civilization was the senior class display. Like the other class "booths" this was placed on the top of the bleachers facing the arena below. Senior boys wore white sailor suits. Senior girls wore black skirts and white middies. Both boys and girls were topped by white sea caps. Led by a flag bearer, they entered the arena to the accompaniment of a march by the high school band and, after encircling the audience, took their places on the bleachers underneath their exhibit.

**Address by Miss Campbell**

The junior class was represented by a monolith of white carnations upon which white carnations spelled the word "Peace." Above this was a large picture of Marshall Ferdinand Foch. Above his head "flew" the dove of peace. To one side hung the American flag and to the other the French flag, both made of flowers. The whole was symbolical of the address of the junior class speaker, Miss Kathleen Campbell, daughter of Mr. and Mrs. Dan Campbell, whose subject was "Foch, The Man."

The spirit of this address was further exemplified in the attire of the

(Continued on Page 9)

## WILLIAM B. KELLY IS CHOSEN HEAD OF PROGRESSIVES

### Big Meeting and Banquet to Be Held May 9 When New Officers Take Charge

At the weekly luncheon of the Progressive Business Club at Ye White Inn, Friday noon, permanent officers were elected preparatory to receiving a charter. William B. Kelly, local realtor, was elected president; G. C. McConnell of the Builders' Hardware & Supply company, vice president; George H. Thomas of the Brand Boulevard Branch of the Los Angeles Trust & Savings bank, treasurer, and James Howarth of the Harrower Laboratory, secretary.

Four of seven directors also were elected: Dr. Henry R. Harrower, George Lindsay, architect; E. B. Sutton, Nash dealer, and George A. Whittaker, druggist.

The meeting was the most enthusiastic yet held by the club and plans were formulated to have a smoker and meeting of installation in the banquet hall of the Chamber of Commerce Tuesday night, May 9, when an excellent program will be given and about fifty Progressives from Los Angeles and Long Beach will be present in addition to many guests from Glendale.

The necessary charter members have been secured to organize the club and with five new members who joined the Progressive ranks Friday, the club will make its debut in Glendale under very auspicious circumstances, it is predicted.

## Intensive Campaign by W. C. T. U. Discussed

At the regular meeting of the Glendale W. C. T. U., held at the Baptist church yesterday, plans were discussed for an intensive campaign for new members in connection with the house to house canvass for entertainment of convention delegates. Devotionals at yesterday's meeting were in charge of Rev. Ingals of the East Colorado Street Mission. Mrs. Edith Glassey urged the collection of Bibles among members of the Union to be given to the girls at the Frances Willard Home in Los Angeles. Mrs. Mottern spoke of the necessity of Christian people being awake for the coming election in November for law enforcement.

The reports from the delegates to the county convention recently held in Los Angeles was inspiring. Arrangements were made for a banquet to be held at Ye White Inn during the convention. Meetings of the local Union will be held each week at the Baptist church until after the state convention of the W. C. T. U. to be held in Glendale the last week in May.

## Postal Week Didn't Cost Uncle Samuel One Penny, Is Claim

Postal Improvement Week draws to a close this evening with the employes of the Glendale postoffice quite satisfied that both the public and themselves learned a lot. Several people are under the impression that Uncle Sam was paying for the entertainment, but that is not a fact. Each clerk and carrier contributed $1 to the general fund, the Chamber of Commerce loaned the flags, the city light crew strung them across the street, the Sierra Club beverage plant furnished the Fru-ber-ree' punch and the Crystal Ice company the ice cream. The large week didn't cost the government one penny, according to Postmaster D. Ripley Jackson.

## COMPLETE SUCCESS IS NOT POSSIBLE, SPEAKER SAYS

### Even Thos. Edison and Luther Burbank Have Failed to Reach Desired Goal

"Success and Failure" was the subject of the address made last night to the members of the American Legion Post of Glendale by George H. Knox of the Knox Institute of Efficiency. Following the example set forth in his teachings, Mr. Knox gave a demonstration of practical efficiency when he concentrated more facts and statements in his twenty-minute talk than the usual speaker does in an hour.

Mr. Knox briefly went over the various attributes, habits, characteristics, etc., that go to decide whether a man should be placed in the success or failure class of individuals. He stated that the principal objective for the present day successful man "is to do something that another man won't do."

"The principal fault which we find with the average man of today is the fact that he does not realize the greatness of the efforts and results of the present day civilization," said Mr. Knox.

"There are no limits placed over a man or his improvements. There is no ordinance anywhere that is against making good and there is certainly no trade mark on achievement."

**No Complete Success**

In speaking of "The Spirit of Enterprise," Mr. Knox stated that there is no such thing as complete preparation or complete success, citing instances of present day geniuses, such as Luther Burbank, Thomas Edison and others, who, after many years of apparent success, are still striving to further improve on modern civilization.

"Brains plus character is the highest-priced gift in the world and the spirit of enterprise is determined by the ability of a man in getting away from sluggish, mental conditions. The mental energy and intellectual development of man depends upon the relationship of his intelligence and his emotion."

Prior to Mr. Knox's address the Legionnaires were treated to a short and impromptu vocal and instrumental concert by Keaumoku A. Louis, well-known southern California baritone who is a resident of this city, and M. Hollingshead of the Loomis-Shuck Music company. Besides rendering several piano selections Mr. Hollingshead accompanied Mr. Louis while he sang "The Prologue to "Il Pagliacci" and "Mother Machree."

**Second Annual Banquet**

Prior to last night's adjournment, it was announced that the second big union banquet of the Post is to be staged on Friday night, May 26, in the Chamber of Commerce hall on Brand boulevard. The last similar affair, which was held in February, was one of the most elaborate and most largely attended functions of its kind ever given to this city. It is expected "to be more than duplicated," according to Post Commander James F. McBryde. Definite announcements regarding the affair will be made in the near future.

## Patriotic Bodies to Have Representation

The Glendale G. A. R. and Women's Relief corps are planning to send a large delegation of their members to the department convention to be held at Riverside May 9 to 13 inclusive. Those who have already signified their intention of attending the convention include Mrs. Caroline Kretchmer, Mrs. Priscilla Houdyshel, Mrs. Mark K. Smith, Mrs. Susie Peck, Mrs. Alma Dutton, Mrs. Delia Hapgood, Mrs. Lillian Peckham, Mr. and Mrs. George Sanford, Mr. and Mrs. A. W. Scudder, Thomas Hull, Mr. and Mrs. C. R. Norton, Mrs. Mary Milligan, Mrs. Julina Hayes, Mrs. Augusta Patterson, Mrs. Nina Richards, Robert Taylor and Me Leclair.

## PLANS FOR CHAUTAUQUA

At a meeting of the executive committee of the Glendale Chatauqua last night L. T. Rowley was elected chairman and subcommittees named for carrying on the preliminary work for the week of entertainment, May 25 to 31. The southwest corner of Harvard and Orange streets was selected as the site for the big tent.

## NEWLY ORGANIZED ELKS' BAND WILL HOLD CONCERT

### Excellent Musical Body Formed by Lodgemen; May 25 Date Of Public Appearance

What is a real band without a real drum major? The Glendale lodge of Elks claims both, having recently organized a band which is now under the direction of R. E. Kenny, with H. Noel Graham as drum major. C. Maurice Burke, a member of the local club and who organized the band now holds down the position as manager.

To prove their claims of a real band, which is already attested to by the members of the Glendale lodge, a public concert is being planned for Thursday night, May 25, and will take place in front of the Elks' clubhouse on Colorado street. The band will also donate its services in the memorial day parade in Glendale on May 30.

The personnel of the Elks' band is as follows:

R. E. Kenny, director.
C. Maurice Burke, manager.
H. Noel Graham, drum major.
Cornets—L. E. Wilbur, C. K. Aston, Ed Kerri, E. E. Benge, Frank Woolard.
Clarinets—G. W. Pierce, W. G. Bassler, Earl Naudain, Fred L. Hummel, Frank Berto.
Horns—J. F. Johannson, Dan Boone, J. T. Bryne.
Saxophones. G. A. Wight, Dr. E. U. Erwin, Roy Pronty, Joe DeMaggio.
Piccolo and flute—Harry Greenwalt.
Oboe—Mr. Gregory.
Drums—M. Powers, C. J. Ward.
Trombones—Frank Prouty, J. L. Skaggs, Arthur Fryer, Eddie Moniot, H. A. Thompson, H. C. Ferguson.
Baritone — Tom Driscoll, Bob Grayson.
Basses — Maurice Burke, Merril Burke, R. J. Drake.

The local lodge has been fortunate in securing Ralph E. Kenny as band master. He is a member of Minneapolis lodge No. 44 and will soon be transferred to the local lodge. Enthusiastic rehearsals are being held at the club every Tuesday night at 8 o'clock.

## Club Drama Section Makes Plans for Year

At the regular meeting of the drama section of the Tuesday Afternoon club held yesterday afternoon at the home of Mrs. Albert Pearce, 119 West Lexington Drive, with Mrs. Lee Childers as assisting hostess, Mrs. R. E. Chase was reappointed curator for the ensuing year, and Mrs. L. G. Sherman as secretary. It was decided that the section will have a dinner at the close of the club year for their husbands, to be given at the home of Mrs. Warren Roberts. Plans for the coming year were also discussed. It was decided that a costume committee would be appointed for next year, and also a book committee, Mrs. Lee Childers and Mrs. Malvern Barker were chosen for the latter committee.

The resume of the book "The Bluebird" was given by Mrs. Harry Lockwood. Members of the section also read portions of "The Betrothal" (Maeterlinck), and at the close of the meeting delicious refreshments were served. The next meeting of the section will be held May 19 at the home of Mrs. R. K. Snow. At that time the study list for the next year will be discussed and adopted, and the reading of "The Betrothal" will be completed.

Those present at yesterday's meeting included Mrs. Malvern Barker, Mrs. E. A. Bode, Mrs. Colin Cable, Mrs. Alma Gibbs, Mrs. Max Green, Mrs. J. C. Dunn, Mrs. A. P. Findlay, Mrs. A. M. Hunt, Mrs. Roy L. Kent, Mrs. Harry Lockwood, Mrs. C. J. Newcomb, Mrs. L. G. Sherman, Mrs. R. K. Snow, Mrs. Charles H. Temple, Mrs. W. H. Verity, Mrs. Jesse Joseph, Mrs. R. E. Chase, Mrs. Lee Childers, Mrs. A. L. Bryant, Mrs. E. E. East, Mrs. A. L. Ferguson and Mrs. Albert Pearce.

## Mr. and Mrs. Boicourt Given Surprise Party

Mr. and Mrs. Z. T. Boicourt of 327 West Harvard street were pleasantly surprised last night by the "Jolly Twelve," who arrived to assist in the celebration of Mr. Boicourt's birthday anniversary. Mr. Boicourt was away from home for a few moments, and Mrs. Boicourt, going to the front door in response to a ring, switched on the lights and was very much astonished to find her rooms filled with unexpected guests.

Upon the return of Mr. Boicourt, he was equally surprised in much the same manner. The evening was devoted to games and music, and light refreshments served.

Those present were Mr. and Mrs. B. F. Geiger, Mr. and Mrs. C. E. Russell, Mr. and Mrs. W. A. Maxwell, Mr. and Mrs. E. E. Haw, Mr. and Mrs. C. W. Spickerman and Mr. and Mrs. Boicourt.

This was also a farewell gathering of the "Twelve," as they will be separated for the summer months, as Mr. Geiger will leave the twentieth of May for an extended visit in the east, and Mr. and Mrs. Spickerman are leaving soon for a summer camping trip in Yosemite. They will be accompanied by Mr. and Mrs. George Jeffrie.

## Today's World News In Brief

(By International News Service to Glendale Evening News)

**CAPITALIST, 60, IS SUED BY GIRL, 19, FOR $50,000**

SAN DIEGO, May 6.—George F. Eckstrom, 60, a capitalist of Salt Lake city, was sued for $50,000 here today for breach of promise by Miss Hope Marie Earl, 19, of San Diego.

**COST OF LIVING AGAIN ON INCREASE, IS CLAIM**

WASHINGTON, May 6.—The cost of living is again on the increase in most sections of the country, the bureau of labor statistics announced today. Retail prices of food increased in twenty-one cities in the period from March 15 to April 15, while in nine other cities there were slight reductions. Kansas City reported the largest increase, 2 per cent.

**YOUNG DODGE GETS FINE, PROBATION, ORDER TO WORK**

KALAMAZOO, Mich., May 6.—One thousand dollars' fine, probation for one year, and an order to go to work at once, were the penalties imposed on John Duvan Dodge, son of the late Detroit automobile king in Judge George Z. Weiner's court here today. Dodge, who was convicted with Rex Earl, of violating the liquor law, will appeal his case. Earl was fined $100. Under the terms of the decision Dodge will go to Detroit at once and go to work and will report weekly to the circuit and the probation officer here.

**HARDING ASKED TO STRAIGHTEN OUT BONUS TANGLE**

WASHINGTON, May 6.—President Harding was asked again today by republican members of the senate finance committee to straighten out the soldier bonus tangle in congress. Senators McCumber, Watson and Curtis of the committee and Senator Lodge, the republican leader, conferred with the president at the White House for more than an hour outlining the combination cash and insurance plan which they have worked out to meet the administration's objections to the adjusted compensation certificate plan of the Fordney bonus bill passed by the house.

**THREE NEGROES ARE BURNED FOR ATTACK UPON GIRL**

KIRVIN, Tex., May 6.—Southern "justice" was meted out to three negroes as daylight broke over this little settlement this morning. While a crowd of 500 men, women and children looked on, they were burned, one by one, in a vacant lot in the business district, as punishment for having ravished and murdered Eula Ausley, 17-year-old school girl, Thursday, as she was returning from school. The negroes had been arrested after searching parties had combed this district Thursday night and all day yesterday. One of them finally confessed. The negroes were first mutilated and then burned, each being bound to an old plow around which fire wood was stacked.

**OSER'S ENGAGEMENT TO MISS M'CORMICK NOT BROKEN**

ZURICH, May 6.—Major Max Oser's engagement to 16-year-old Mathilde McCormick of Chicago, granddaughter of John D. Rockefeller, has not been broken off, but, on the contrary, Oser is busily preparing their future home which will be a virtually isolated love nest in the Alps, according to information obtained today from Oser's lawyer. "The engagement has not been broken off," said Oser's lawyer, when shown a copy of cablegrams which had been published in the United States. "Quite the contrary is the case. Oser has been very busy for two weeks preparing for the nuptials. I expect him to return to Zurich next week. Just what word he has received from Miss McCormick I do not know."

**LOSES IN AIR FLIGHT AFTER WIFE, ALSO LOSES SUIT**

SAN FRANCISCO, May 6.—Although he failed to reach Los Angeles in time to have a pugilist, who rushed there by airplane, administer a beating to a masculine traveling companion of his wife, Edward Bradley must pay $350 for an air trip to the southern city, according to a judgment on file today in Judge Griffin's court. On July 18, 1920, according to the testimony, Bradley hired Earl Cooper to fly him and his pugilist companion to Los Angeles to intercept his wife, who, he said, was leaving for the east with a male companion. Cooper flew Bradley and his friend to Tracy where engine trouble developed. Robert G. Fowler furnished a relief plane and it got on the wrong air trail, landing Bradley twenty miles from Los Angeles twelve hours after the train bearing his wife had left. Bradley refused to pay more than $250 for the trip. Suit was then entered and judgment obtained for $350.

**POLICE SEEK TRACES OF CONVICT WHO MADE ESCAPE**

SAN QUENTIN, Cal., May 6.—An organized man hunt was under way today for Leo Brennan, one of two convicts who sawed their way to liberty from the state prison, cutting two sets of bars and escaping through a tunnel dug under a deep concrete wall. Elmer Murphy, who escaped with Brennan, was captured in San Rafael after an all night search by a night watchman. Their escape was not discovered until late last night when it was found they had sawed their cell bars. Investigation developed that a second set of bars had been sawed and escape made through a tunnel dug under the concrete floor and wall of the fan room. Officials believe from the nature of the tunnel that a wholesale break was planned as the two who escaped would not have had opportunity to have dug. They are believed to have double crossed their fellow plotters.

**PEGGY SEEMS TO BE IN GREAT HURRY TO REACH U. S.**

PARIS, May 6.—Ill and despondent over the notoriety brought upon her name by the recent suicide of "Billy" Errazuriz, her South American lover, Peggy Hopkins Joyce, former American chorus girl and four times married, left Paris today for Cherbourg to sail upon the liner Mauretaina. A report was printed here that Pierre Merillon, former suitor of Peggy, and one time her husband-to-be, will accompany her to the United States, but this could not be confirmed. Merillon is not a passenger on the boat train, although he may have gone to Cherbourg last night. Jack Dempsey was not at the railway station to see Peggy off. In response to queries regarding the report that Peggy and Jack will appear in the movies together in the United States, Peggy said: "My trip to America is much simpler than that. I am going because my mother is sick. The movies have nothing to do with my departure, but, of course, I am willing to see any of the producers in New York if they want to see me. I want to get back to Paris just as quick as I can. I expect to be back here before the middle of June." It is reported Peggy will marry Henri Lettellier, "the richest man in Paris," on her return.

**HENRY P. DAVISON DIES WHILE ON OPERATING TABLE**

NEW YORK, May 6.—Henry P. Davison, famous banker and member of J. P. Morgan & Co., died this afternoon during an operation for a brain tumor. He died on the operating table. The operation was being conducted at Mr. Davison's home at Glen Cove, L. I. J. P. Morgan and other friends of the ill man were present. Mr. Davison had been assured by the attending surgeons that the operation was not serious and that they did not anticipate any complications. Mr. Davison, buoyed up by the assurance of the doctors, spent the morning cheerfully. He chatted and joked with members of his family. He had undergone a similar operation at a New York hospital some months ago. Martin Egan of J. Pierpont Morgan & Co., announced he would issue a statement to the press at 1 o'clock. Shortly before 2 o'clock the statement was made of Mr. Davison's death. The stock market had closed at noon and consequently the news had no effect upon prices of securities. The deceased was born at Troy, N. Y., on June 13, 1867, the son of George B. and Henrietta Davison. He was educated at Williamson, Mass. In 1983 he was married to Miss Kate Trubee of Bridgeport, Conn. He entered the banking profession, becoming teller of the Astor Place National bank in 1891. Eight years later he was elected president of the Liberty National bank. After joining the firm of J. P. Morgan & Co., he was made chairman of the executive committee.

## GLENDALE THIRD IN BUILDING RECORD OF SOUTHLAND

### Los Angeles and Long Beach Only Cities Ahead of 'Home Town' During April

With the exception of Long Beach the city of Glendale is second only to Los Angeles in southern California building records for the month of April, according to the figures tabulated by the Southwest Builder and Contractor, which follow:

| | April, 1922 | April, 1921 |
|---|---|---|
| Los Angeles | $12,959,686 | $ 7,250,571 |
| Long Beach | 2,549,422 | 1,505,400 |
| **GLENDALE** | **1,022,699** | **392,699** |
| Pasadena | 561,596 | 375,392 |
| San Diego | 821,446 | 1,657,055 |
| Santa Monica | 364,575 | 240,000 |
| Santa Barbara | 337,444 | 295,215 |
| San Bernardino | 297,580 | 83,036 |
| Santa Ana | 280,580 | |
| Alhambra | 229,875 | |
| Anaheim | 200,111 | 65,200 |
| Eagle Rock City | 194,275 | 65,350 |
| South Pasadena | 168,000 | 64,405 |
| Huntington Park | 147,300 | 112,083 |
| Ontario | 132,325 | 53,775 |
| Hermosa Beach | 123,200 | 103,800 |
| Inglewood | 113,371 | 29,310 |
| Phoenix | 91,590 | 175,817 |
| Redondo Beach | 90,375 | 42,650 |
| Fullerton | 90,312 | 47,650 |
| Whittier | 76,660 | 55,290 |
| Riverside | 76,589 | 55,055 |
| Newport Beach | 51,223 | 28,350 |
| Orange | 47,800 | 26,925 |
| San Fernando | 43,820 | 29,950 |
| Culver City | 41,580 | 43,100 |
| Coronado | 39,845 | 39,175 |
| Monrovia | 34,258 | 100,000 |
| Ventura | 22,100 | 37,800 |
| Monterey Park | 20,610 | |
| Redlands | 16,650 | 19,300 |
| Manhattan Beach | 15,040 | 23,125 |
| National City | 12,025 | 8,600 |
| San Gabriel | 9,850 | 12,200 |
| El Segundo | 3,180 | |

**Total Passes $21,000,000**

This represents a total of more than $21,000,000 in southern California construction work. Burbank is not mentioned, but its permits were close to $70,000.

Glendale, with its million dollars, will go in the national records as comparatively few cities make that figure and it is doubted that any place, without some great public work under way, ever had as heavy per capita building total.

Nance Construction company of Los Angeles, has been awarded the general contract at about $65,000 for erecting a new church at Glendale for the Congregational church. Contracts for plumbing, wiring, heating, glazing and furniture will be let separately. Carleton M. Winslow, 1134 Van Nuys building, is the architect. Excavation work will start the first of next week, according to S. Sheiling.

## Chapter Pays Tribute Behalf 'Mothers' Day'

The members of Chapter BA, P. E. O., of which Mrs. Walter Stamps is curator, held their annual "Mothers' Day" celebration yesterday at the home of Mrs. A. S. Chase, 400 Riverdale Drive. A short business session was held in the morning and the guests of the chapter, mothers of the members, arrived at noon, when a two-course luncheon was served.

A very interesting program was given in the afternoon. Mrs. Stamps read an original poem written by Mrs. Fannie Crampton of Chapter CJ, "A Toast to Mother," and at the same time this was read each member pinned a carnation on her guest, or mother. Mrs. Stamps presented Mrs. Kate Parker with a bouquet of roses, announcing that she had been chosen as chapter mother. The program also included a group of piano numbers by Mrs. Eva Cunningham, humorous reading by Miss Martha Cox of Chapter CJ and vocal solo, "Believe Me If All Those Endearing Young Charms," by Mrs. Frank Arnold. Each guest was requested to relate some anecdote about their children. There were about forty present at yesterday's meeting. Decorations of roses were used throughout the Chase residence.

## Intermediate Class At Brookside Park

The A-8-4 class of the Intermediate school was taken to Brookside park this morning at 8:30 o'clock by Morgan Bros.' trucks, where they are enjoying the annual class picnic. The morning hours will be devoted to swimming and tennis and a baseball game is scheduled for the afternoon.

Miss Carrie Noble, principal of the school, who will motor over from her home in Pasadena, will be the guest of honor at lunch.

Teachers invited to accompany them were Miss Edith Tyler, Miss Ada Salstrom, Misses Gladys and Margaret Sharpe, Mrs. Malcolm McClennon, and Manning L. Alvis, the class teacher.

Members of the class are: Bernice Collins, Dorothy Steiner, Elizabeth Blumfield, Leona Berry, Theodora Peterson, Edith Addison, Dorothy Young, Helen Randall, Dorothy Shaw, Alice Garber, Marjorie Jolliffe, Elva Post, Ruth Vogel, Zelda Kocher, Helen Hone, Florence Knight, Ruth Willis, Katherine Tucker, William Phelan, Dale Robinson, Roland Oliver, Charles Findley, Auston Teasley, Lawrence Reynolds, Grant Abbott, Elvin Richards, Robert McReynolds, LeRoy Tepe, Harold Begg, Clifford Hermann, Carlisle Whaley Donald Dewey, James Smith and John Winger.

## NO LONGER REGISTERING

Mrs. Minnette Sherman of 316 Ethel street no longer is registering voters as she accepted a position on March 1 in the bookkeeping department of the outdoor relief division of the County Charities.

## QUEEN OF MAY AT CERRITOS SCHOOL PAID HOMAGE

### Her Majesty, Mary Jane La Point, and Large Court Greet Many Loyal Subjects

Youth and beauty strove for supremacy yesterday afternoon at the Cerritos Spring Festival.

The coronation of Mary Jane La-Point as Queen of the May was the keynote of the revelry.

Proud mothers and a few fond fathers observed the pageant from the sidelines. They unanimously announced it a tremendous success.

California sunshine, bright colors and rhythmical music all intensified the exuberance of youth.

The pet show was the object of much interest. To it the youngsters had brought animals of all kinds and dispositions, ranging from a horned toad to pedigreed cats and dogs.

The kite tournament also was noticeable. "Lighter-than-air" kites of all sizes and shapes were entered in the display.

Booths operated by class mothers were well patronized. They kept both children and "grown-ups" supplied with "goodies."

**Fathers There, Too**

A plate dinner was served to a large number. Many fathers reported at the school grounds in time to share in this event.

The program presented by pupils of Cerritos school was declared perfect. It started about 2 o'clock and lasted until 4 o'clock. What was the best feature of it? Ask the queen.

A bear frolic by a little girl in a bear skin was the source of much amusement. This was put on by Julie Blake, small daughter of Mrs. Walter Blake of 1112 West Pico street, Los Angeles. Her act was much applauded.

The Intermediate school orchestra played during the intermissions. This was directed by Miss Elsa Brenneman, director of music in the city school system. Rhythm for the exercises was furnished by a Magna Vox loaned by W. A. Kenny of 203 North Brand boulevard, local representative of the Columbia.

The program closed with a military drill by the boys of the school under the command of William Samis. Comment was made upon the precision with which they executed their manoeuvers as seasoned veterans.

The queen's procession was a magnificent spectacle. Just 130 girls from the upper grades dressed in

(Continued on Page 3)

## GIVE OUT MEMEBERS OF KIWANIS CLUB COMMITTEES

### Workers Are Chosen to Carry On for Year; Talk Is Given by Dr. H. V. Adams

At the regular weekly luncheon of the Glendale Kiwanis club, of which Lyman P. Clark is president, held yesterday at the Chamber of Commerce, a most interesting talk was given by Dr. H. V. Adams on "Let Dad Do It." Dr. Adams was formerly a resident of Glendale and is now making his home at Lomita. He has been on the Chautauqua circuit for a number of years and is a most interesting speaker. R. F. Adams, of the Glendale Kiwanis club, is his son.

At the business session of yesterday's meeting the following permanent committees were appointed for the year:

Program, Spencer Robinson, chairman; O. W. Andreson, Harry Girard, Ray Galvin, Fred Deal, R. C. Adams; reception, Harry MacBain, chairman; Herman Nelson, William Reeves, P. J. Hayselden, Tom Furst; membership, A. L. Baird, chairman; C. W. Ingledue, Eugene F. Sanders, Frank Pilling and J. H. Wittmeyer; attendance, Henry Kuhn, chairman; E. P. Hayward, Emil Kiefer, Ray Bentley; house committee, C. F. Stuart, chairman; Dr. E. Swift, Dr. W. T. Hurt, Dr. John Anderson; finance, D. H. Smith, chairman; F. W. McClellan, Dr. T. C. Young, Dr. C. W. Taylor; education, A. L. Ferguson, chairman; Bert Woodard, John L. Watson, H. F. McBryde, J. M. French; publicity, M. B. Towman, chairman; H. C. Pennock, R. F. Adams, inter-city relations, Lyman P. Clark, chairman; Fred Deal, Charles B. Murphy, William Reilly; public affairs, W. L. Truitt, chairman; City Manager Reeves, S. Berman, George F. Smith, Dr. J. P. Luccock; business methods, R. M. Brown, chairman; R. M. McGee, H. D. Charlton, H. E. Wilson; classification, D. H. Webb, chairman; A. R. McGrath, R. M. Fairchild, R. L. Hassell, H. M. Parker; grievance, Cameron D. Thom, chairman; Spencer Robinson, M. B. Towman and Dr. C. W. Taylor.

The main idea running through Dr. Adams' talk on "Let Dad Do It" was that of "passing the buck," covering all of the phases of it, including politically, industrially, economically, etc.

George H. Knox, representative of the Knox Institute of Los Angeles, and Andrew J. Kronis, optician, were guests of the club yesterday.

## Announcements of Services in Local Churches

**CENTRAL AVENUE METHODIST**

S. Central and Palmer Aves. The 100 per cent family church. V. Hunter Brink, D. D., pastor. Residence, 1124 S. Central Ave. Mrs. Harry N. McMullin, musical director. Mrs. Casper Tuttle, pianist. James Lee Brown, Sunday school Supt. Sunday, May 7, will be "Family Day." 9:30 a. m., Sunday school, classes for all. Sermon subject, "Grownup Children." At the conclusion of the morning service those who desire to enjoy a quiet social time together will take their lunches to some pretty spot in God's out of doors, returning in time for the teacup hour where a good program awaits them. 5:30 o'clock p. m. Teacup hour. Every one invited. Program in charge of Lucile Hixon, will consist of readings, vocal solos, and community songs. Rev. Preston will relate a few of his experiences and observations in London. Refreshments in charge of Mrs. Lelia Hone and Miss Helen Hone. 6:30 p. m. Epworth League devotional service, in charge of Miss Vivian Hewitt. Subject, "Growing of Christian Character—The Seed." Evening worship, 7:30 o'clock. Subject, "Is Life Worth Living?" Special music by choir morning and evening.

## Mr. and Mrs. Lawrence Are Hosts at Dinner

Mr. and Mrs. J. B. Tabour and Dr. and Mrs. C. A. Tucker of Minneapolis, were dinner guests Thursday night of Mr. and Mrs. Edward S. Lawrence of 224 South Jackson street. Mr. and Mrs. Tabour and Dr. and Mrs. Tucker left yesterday for their eastern home.

Mr. and Mrs. Lawrence are planning to leave June 1 for a visit to their old home in New Jersey and will also visit Atlantic City in July during the Elks' national convention. On their eastern trip they will go by way of the Canadian Rockies.

Mr. Lawrence, who is assistant manager of the local Ford agency, intends to spend about a week in Detroit inspecting the plant of the Ford Motor company.

The Glendale Evening News

Entered as second-class matter January 12, 1922, at the postoffice at Glendale, Calif., under act of congress of March 3, 1879. Published daily except Sunday.

On Sunday, May 7

WE OPEN

A SPLENDID ADDITION

to the most successful and beautiful foothill home tract in all Glendale

EAGLE GLEN HEIGHTS

which was placed on the market 90 days ago and is nearly sold out

EAGLE GLEN HEIGHTS ADDITION

consists of the exquisitely lovely Canyon Crest property, fronting on Wilson Street. It will be improved in the same exclusively high class style as the original tract—with wide streets, paved sidewalks, curbs, semi-tropic trees, ornamental street lights

ONLY A LIMITED NUMBER OF LOTS

are included in Eagle Glen Heights Addition

so quick action is absolutely necessary

Lots are exceptionally large. Prices and terms most attractive for property of this unusual character. Agent at office on tract at east end of Broadway will give full particulars.

## HEALTH-AGAIN TALKS

### By Dr. Otey

Regarding mushroom cults that endeavor to imitate Osteopathy:

If a man decides to try a drugless system founded on the mechanical principles of adjustment he has a right to know (and it is a duty to himself to know) what preparation the applicants for his patronage have had.

The mushroom mail course imitators of Osteopathy tell you they are the sanctified rosewater few who adjust and that the Osteopath only rubs. I suppose the psychologist has a name for this mania and the Phycho-analyist may be able to offer an explanation of it, but it must always remain a mystery to the plain, hard working lesion adjusting Osteopath.

These poor deluded souls?—either know better or they don't. If they know better they are dishonest, if not, they are very, very ignorant, ignorant of the human body and the laws of health and ignorant of osteopathy and other systems of healing.

Most people in this enlightened land know that the very foundation of osteopathy is adjustment, that that is the one striking idea that differentiated Osteopathy from all other schools when the Kirksville school was established in 1892, and when these mushroom cults with their recently stolen Osteopathic thunder claim a monopoly on adjusting the human body, the public knows they are **dishonest** or **ignorant.** Let us be charitable and give them the benefit of the doubt and admit them to be **dishonest** for, verily, "The mark of the beast is ignorance."

So you are reminded that Osteopathy is still a complete, separate science and that its founder, Dr. Still, is the master mind in therapeutic philosophy.

The easternmost point of the United States is West Quoddy Head, near Eastport, Maine.

## Locals and Personals

Mrs. S. L. Manson of 1010 North Pacific avenue spent Friday with Los Angeles friends.

Dr. C. L. Phinney of Eagle Rock was in Glendale on Thursday night visiting with friends.

Mr. and Mrs. W. E. Lee of 213 North Isabel street will entertain as dinner guests tonight Mr. and Mrs. A. W. Tower and daughter Ruth.

Arnold M. Z. des Plantes of Hawthorne, former resident of this city, was in Glendale this morning visiting with friends and former neighbors.

Mrs. E. D. Hamlin of 315 North Louise street has as her guest for several days, Mrs. Mary B. Bemus, who is an artist and resides at Laguna Beach.

S. L. Gillan of 203 West Maple street and father, S. Y. Gillan, left Tuesday for the desert near Barstow, where they are doing some field work.

Mr. and Mrs. Eugene Gordon of 343 Salem street entertained as dinner guests last night Russell Burton and mother, Mrs. Bell Burton of Spokane, Wash.

Mr. and Mrs. W. R. Frampton of 215 Arden avenue and friends from Los Angeles left this morning for a week-end trip to Imperial Valley. They will also visit at San Diego.

Mr. and Mrs. Frank Weller of 310 East Wilson avenue entertained as their guests at dinner last night Mrs. H. M. Way, Mrs. D. Chesney and daughter, Virginia.

Mr. and Mrs. F. G. Hall of 1201 Viola street had as guests recently Judge and Mrs. Robert N. Clark of Los Angeles, Mrs. A. J. Comstock and Miss Belle Cullinan of Hollywood.

Mrs. M. J. Miller of 626 North Isabel street, left Thursday for a two weeks' visit in San Diego and vicinity. She will spent some time with her son whose home is at El Cajon.

Thomas Williams, who has spent the past few months in this city as the guest of his cousins, Mr. and Mrs. Jack Williams of 336 West Park avenue, left on Tuesday of this week for his home in Cripple Creek, Colo.

Miss Edith Learned of Sixth street and Miss Lulu Garton of East Harvard street are among the Glendale people in attendance at the annual picnic of the College of the Christian church of Los Angeles, which is being held today at Griffith park.

Mrs. Frank Truscott of Los Angeles was the house guest for several days of Mrs. J. G. Huntley, 1434 Highland avenue. Mr. and Mrs. Huntley entertained as their dinner guests last night Mr. and Mrs. George Taylor.

Dr. Samuel Pollock of 419 West Park avenue expects to leave tomorrow or Monday for Fresno, where he will resume his practice next week after ten days' leave of absence, all of which has been spent with his family and friends of this city.

Mr. and Mrs. R. F. Kitterman and daughters, Miss Lavera Kitterman and Miss Kathryn Kitterman, of 311 North Kenwood street, and Cecil Percey are planning to motor to Sawtelle Sunday to visit relatives and will later drive to Santa Monica.

James H. Garnsey of 438 Vine street has exchanged his home at that location for the beautiful home belonging formerly to Miss Narcissa Page of 708 North Louise street. Both sides of the transaction were handled by James W. Pearson, realtor, of 108 North Brand boulevard.

I. J. Phillips, former resident of East Harvard street, this city, was in Glendale Thursday visiting with friends and former neighbors. Mr. Phillips, who is now living in Hollywood, was formerly employed here by the Glendale Feed & Fuel company.

The literary section of the Tuesday Afternoon club, of which Mrs. F. L. Hollingsworth is curator, will meet Monday at the home of Mrs. J. E. Sargent, 717 North Louise street. At that time current events, and American short stories will be taken up.

A program of music, songs and dancing is being planned for the meeting of the Missouri Society of Los Angeles county to be held Friday night, May 12, at California hall, Thirtieth and Main streets, Los Angeles. Former residents of Missouri and their friends have been invited to attend.

Tom C. Gillett of 212 Cypress avenue, who has been a moving picture property man during practically all of the time since the introduction of screen productions, left several days ago for Kentucky, where he expects to spend a number of weeks "on location." He is associated with one of the Culver City companies.

Clark Christy, former resident of this city and who has lived in Downey for the past year, was in Glendale Thursday visiting with relatives and former neighbors. Mr. Christy, who was formerly associated with the Christy grocery and market of this city, now the Piggly Wiggly store, is connected with a large merchandise concern in Downey.

Mrs. George O. Piercey of 626 North Isabel street, entertained on Thursday with a pretty May luncheon. The table was centered with Cecil Brunner rosebuds and ferns. Those present were Mrs. Clare Mueller Weidner of Shatto Place, Los Angeles; E. Pelley of Freeport, Ill., who has been wintering in southern California, and is leaving very shortly for his home; Mrs. M. J. Miller, Mr. and Mrs. Piercey and Jane Piercey.

# JOY PREVAILS AS ROTARIANS GREET NEW OFFICERS

### Installation Banquet Is Lively Affair; Informal Program Complete Success

Joyously did the Glendale Rotarians entertain their wives or other guests last night at a banquet which marked the installation of the new officers.

There was no formal program, but about everybody furnished fun for the evening's play and work. The Rev. E. E. Ford lent his grace with an invocation, retired before dessert was served to marry a couple, and returned in time to hear the closing song of Auld Lang Syne.

Roy L. Kent, the newly elected president, used the cream pitcher as a gavel, Jim Rhoades having locked the mallet in his safe before he headed south. George B. Karr presided long enough to elect Mr. Kent delegate to the international convention in Los Angeles, while the compliment was returned by letting George do the alternate role.

**Reports Submitted**

J. Herbert Smith, secretary, announced the standing committees, with emphasis on their standing as all were sitting down. Reports on Boys' Week, May 12, 13 and 14, were made; a report on the crippled children whose education will be cared for by the club, and reports on everything else, including a fishing trip were made satisfactorily.

Souvenirs were given the women attending and Mrs. Helen Sawyer presided at the piano, while F. J. W. Henry led the ensemble singing of everything from "America" to "California," the latter being the convention song.

The evening closed with an invitation by William A. Howe to attend the preview of Maj. Rupert Hughes' latest feature, "Remembrance," at the Glendale Theatre.

## Marion Grigg Bride of Willard D. Keith

A very pretty home wedding took place last night, Friday, May 5, 1922, when Miss Marion I. Grigg, daughter of Mr. and Mrs. William E. Grigg of 319 West Wilson avenue, became the bride of Willard D. Keith of Pasadena. Rev. E. E. Ford of the First Baptist church officiated. Roses and greenery were used to form an arch under which the ceremony took place and similar floral decorations were used throughout the house.

Preceding the wedding, Miss Mildred Hermanns of Pasadena sang, "Oh Promise Me" from "Robin Hood," and also "I Love You Truly," after which she played the wedding march from Lohengrin.

The bride wore a very attractive gown of white georgette crepe, trimmed with crystal beads, and carried a shower bouquet of sweet peas and Cecil Brunner rose buds.

Guests present at the wedding included Mr. and Mrs. W. H. Keith of Pasadena, parents of the bridegroom; Mr. and Mrs. George Keith of South Pasadena, Clyde Keith of Pasadena; Mr. and Mrs. William E. Grigg, parents of the bride; Mr. and Mrs. Walter E. Grigg, Ernest Grigg and Miss Helen Cobb of Glendale.

After their honeymoon trip Mr. and Mrs. William D. Keith will be at home to their friends about May 20 at 551 West Harvard street.

## A. B. Clement Invites Public to See Roses

A. B. Clement of 1321 North Pacific avenue states he has a wonderful rose tree in bloom at the present time and he would be pleased to have motorists out that way Sunday to stop and look at the beautiful work of nature while it is in full bloom.

"Like Glendale, the fastest growing city in America, this is the most wonderful tree in the world," says Mr. Clement.

## PLAN MASONIC MEMORIAL

According to the Southwest Builder & Contractor, John W. Kemp, president of the Masonic board of relief, Washington, D. C., has announced the board will erect a $75,000 granite memorial here.

**A CONTRAST**

Twenty-five hundred years ago Syracuse, in Sicily, was a splendid city of half a million souls and called the wealthiest of its time. Today, its 30,000 residents occupy only a small section of the former city and are mostly poor and commonplace.

One hundred years ago Chicago was not founded. Today it is one of the largest and greatest cities of the world, with assessed valuation of nearly two billions of dollars!

What constitutes the difference in these cities? THE LIVES, BRAINS, ACTIVITIES, OF ITS CITIZENS. Human life is the most valuable thing in the world! Yet men insure 80% of their buildings and only 8% of their lives.

Do you measure the value of your life by the insurance you have upon it?

**W. B. KIRK**

(When you see me, don't think insurance; but, when you think insurance, see me!)

## Deaths and Funerals

**JESS HALL**

Members of the Glendale Boy Scout troops and H. F. Benner, Boy Scout executive, had charge of the funeral services at Forest Lawn cemetery at 9 o'clock this morning for Jess Hall, a brother scout, who passed away at his home in Tucson, Ariz., recently of double pneumonia, at the age of 17 years. He was a first-class scout of Troop No. 1 of Tucson, of which Mr. Benner had charge before coming to Glendale. The body was met at the train in Los Angeles this morning by the Glendale scouts and escorted to Forest Lawn cemetery.

Glendale scouts who acted as pallbearers and guard of honor included: Eagle Scouts, Kenneth Nibbs, Dallas Kalbaugh, Clifford Walcott and H. Benjamin Robison; Star Scout Wilfred Jackson; First Class Scouts, Arthur Barton and Dave Chandler; Second Class Scouts Jack Packard and Wilbur Booth; Tenderfoot Scout John Torrey, all of Troop No. 2 of Glendale. Eagle Scout Robert Searles of Troop No. 1 was the bugler who played "Taps" over the grave. Simple scout services were conducted at the grave. Mr. Benner gave a short talk telling of his acquaintance with the deceased. The boys repeated the Boy Scout oath and benediction was given by H. Benjamin Robison, after which "Taps" was played.

**MISS ANNA FUNK**

Miss Anna Funk, sister of Mrs. E. O. Fitz of 308 North Louise street, passed away at her home in Los Angeles last night. She is survived by several sisters and a brother, Mrs. E. O. Fitz of Glendale; Mrs. M. W. Fitz and Mrs. F. W. Jackson of Iowa, and A. L. Funk of Tulsa, Okla., all of whom were with her when she passed away.

**CHARLES K. BOSWELL**

Funeral services for Charles K. Boswell will be held Monday morning at 10:30 o'clock at the Little Church of the Flowers, interment at Forest Lawn. L. G. Scovern Undertaking company in charge.

**JOSEPH H. PARKER**

Joseph H. Parker passed away last night, May 5, 1922, at his residence, 429 South College View, Eagle Rock, at the age of 68 years. He was a native of England and is survived by a wife, Mrs. Edith Parker, and two children. Funeral services will be held Monday afternoon at 2 o'clock at the Little Church of the Flowers. L. G. Scovern Undertaking company in charge.

**CLAYTON H. WALLACE**

Funeral services for Clayton H. Wallace are being held this afternoon, Saturday, May 6, 1922, at the Little Church of the Flowers under the direction of Pulliam-Kiefer & Eyerick.

The American Legion has direction of the ceremonies at the grave with Chaplain Harley G. Preston, pastor of the Pacific Avenue Methodist church officiating.

Mrs. Wallace, who passed away yesterday in Los Angeles, was a member of the 141st Field Hospital.

Mrs. Amanda Wallace survives her son and resides at 335 Fairview avenue. A sister, Miss Marie Wallace, lives at the same address. Another sister lives in the east.

## Aunt of Harding to Be Guest at Dinner

Miss Veeda Metcalf and brother, W. H. Metcalf, of 340 North Maryland avenue, will entertain as their guests at dinner tomorrow the aunt of President Harding, Mrs. Frances Wyant, and the latter's son and daughter-in-law, Mr. and Mrs. Harding Wyant, of Sawtelle. Mrs. Wyant and President Harding's father are sister and brother.

Queen Mileno, of Montenegro, has conferred the Order of Danilo I upon George Henry Payne, editor of the New York Forum, for distinguished service in behalf of her country.

# QUEEN OF MAY AT CERRITOS SCHOOL PAID HOMAGE

### Her Majesty, Mary Jane La Point, and Large Court Greet Many Loyal Subjects

(Continued from Page 1)

yellow, lavender, pink and green formed an aisle. Mary Jane La-Point, as the queen, was dressed in a glossy dress of pink taffeta. Her throne was placed upon a dais in a bower of pepper leaves under a blooming acacia tree at the east end of the "court." To it she was accompanied by her maid of honor, Julia Steelman, in a filmy dress of light lavender.

The retinue of the court consisted of eight maids of honor, two in dresses of apricot color, two in light yellow; two in light green and two in light blue. Little Peter Bancroft was the crown bearer. The queen's train was borne by Jack Cleeland and Charles Chapman. She was preceded by six little pages in white sailor suits and by tiny flower girls who scattered rose petals in the path of the procession.

As spring, Geraldine Mangham, in a dress of light green, crowned the queen with a wreath of flowers. The act was followed by a soprano solo by Mrs. Virginia Freeman of 422 East Colorado street, who sang "The May Queen" by Denza.

An episode from Robin Hood staged by 110 pupils from the fifth grade in appropriate costumes was followed by an archery contest for the Queen's entertainment. "Clowning" for this act was done by Byron Clement as the court jester and Kermit Swanson as the Queen's hobby horse who had a merry time chasing each other around the arena.

**Maypole Dances Please**

Two Maypole dances were executd, one by tiny tots from the kindergarten and the other by girls from the upper grades. Both were pronounced very artistic.

A tableau entitled "The March Wind" was presented by barefoot girls from the fourth grade attired as Grecian dancers. The impression of fairiness was enhanced by the large, colored balloon carried by each tiny tot.

The wreath drill by eighty girls was declared one of the most beautiful portions of the program. The milkmaid's dance also was appreciated.

Cerritos faculty and members of the Cerritos-Parent Teachers' association are resting today after strenuous preparaticns for the festival. Pupils have turned again to their regular play. All are content, however, in the knowledge that the affair was a tremendous artistic success.

**HAPPINESS and RELIEF**

from Wash Day Drudgery
are Yours for the Asking.
Make Wash Day a Day of Leisure
in Your Home

The cost is moderate and you'll find our service prompt, clean, and very efficient. You owe it to yourself to investigate. Call us wash day, and give us a trial bundle. We know that's the only condition necessary to convince you that our claims are based on a sound foundation of service satisfactorily rendered.

## Bessie Burke Guest at Miscellaneous Shower

Bessie Burke was the guest of honor at a miscellaneous shower given by the employees of the local telephone office for the new home into which she will soon move. There were thirty of the telephone girls present and many beautiful and useful gifts were received by the guest of honor. Decorations were carried out in the Oriental motif, many of the decorations being complimentary, loaned for the occasion by the Japanese Art & Tea company of Glendale. Floral decorations of roses and wistaria carried out the color scheme of pink and orchid. At the close of the evening refreshments of ice-cream and cake were served. The party was in charge of Miss Emily Van Osdoll.

## Hostess for Faculty Of Broadway School

Miss Henrietta Holliway, teacher of the Broadway school, is entertaining at dinner tonight at her home in Los Angeles, the guests including all the members of the faculty at the school.

Covers will be laid for Mrs. Mary Ogden Ryan, Mrs. Francis A. Wilkinson, Mrs. Cate, Mrs. Baker, Miss Lucile Sparks, Miss Matilda Spike, Miss Susan Crump, Miss Hazel Williams, Miss Mary F. Jenkins, Miss Alta Gaynor and Miss Holliway.

## Questions on Radio and Their Answers

Question: What is the advantage of having only the first step of radio frequency amplification tuned?—B. E. R., Eagle Rock.

Answer: Where several steps of radio frequency amplification are employed, after the first step is tuned to the desired wave length, and the bulbs in the other stages adjusted to the proper point, the first step is the only one that needs any change in adjustment for different wave lengths; in other words, having only the first step tuned and the rest resistance coupled, simplifies the tuning, which is most desirable.

Question: Would the addition of a capacity ground increase my receiving range?—J. L. B., Verdugo Woodlands.

Answer: No; but if you are using vacuum tubes for C. W. transmission, the addition of a capacity ground will increase your antenna radiation.

Question: I am contemplating the purchase of a crystal set, and was looking one over in a store on Brand boulevard the other day and the salesman told me the set would work much better in my own home than it would in their store; now is this a fact, or was it simply salesman's talk?—T. C., Glendale.

Answer: I would say that the salesman told you the exact truth. Brand boulevard in the downtown district is not the most ideal place to demonstrate all the good there might be in a crystal receiver. The reason being too long a story to publish in detail, but mainly that in this particular district there are many disturbing elements that would keep a receiver from showing at its best, and if you can listen in just fairly well on a crystal detector in the business district downtown, you may be assured you will get better results with the same receiver out in the residential district.

Question: I live close to the corner of West Broadway and Orange street, and at times, especially in the afternoon, the broadcasting from Los Angeles is interrupted by noises that sound like crashes in the head receivers. Can you explain the cause of this disturbing noise?—C. C., Glendale.

Answer: I can make a good guess which I believe causes the so-called crashes that you speak of. In the new Ralphs building there are several doctors that have X-ray apparatus and other electrical equipment, and I believe when you hear these crashes that disturb you, one of those doctors is turning his X-ray or Violet-ray on one of his patients; we have got to give these doctors a chance, but maybe we can induce them to do their X-ray work in the mornings.

## Here's Final Story In Radio Contest

By GEORGE VAN SANDS
Radio Editor The Evening News

This is the last entry to the prize radio story contest and is contributed by Charles Dwight of 201 Hillside Drive, Verdugo Woodlands. His story completes the contest insofar as the stories are concerned, and it is now up to the readers to send or bring in their votes to the radio editor; we can then count the votes, and announce the name of the winner through this column and award the prize. The story:

"Radio fans here in Glendale have a whole lot to be thankful for, as there is absolutely no restriction whatever placed by either the government, the state or the city on the activities of anyone who wishes to install a wireless telephone receiver in their home. How lucky we are not to be living in either England, France or Germany where those governments place very severe restrictions on the radio enthusiasts, making it practically impossible for anyone other than the very wealthy to enjoy the benefits of radio.

In England practically nothing but time signals are broadcasted, and all amateur radio fans are placed under supervision of the government, and these radio fans are very few, mostly for the reason that the equipment is not only very expensive, but it is heavily taxed.

In France restrictions are even more severe than in England, and practically everything going through the air is sent in secret code which, in itself, is enough to discourage almost any fan.

In Germany it is just about the same as high treason to have a wireless in your home and there is practically no such thing as a radio amateur.

How different our Uncle Sam treats us in this regard—every possible help is given toward the advancement of radio and we have Secretary Hoover's own assurance that the government proposes to leave no stone unturned in the effort that the radio amateur may have a free field to experiment toward the ultimate advancement of radio.

## John Camphouse Is Now With Union Bank

John Camphouse, who resides at 217 East Maple avenue, has been appointed assistant cashier of the Union Bank & Trust Company of Los Angeles, according to an announcement by Ben R. Meyer, president. The former has been in the examination department of the Los Angeles Clearing House association where for several years he was examiner for that organization. For thirteen years prior to that he was with the Farmers & Merchants National Bank of Los Angeles.

In addition to his employment, Mr. Camphouse has been active in the affairs of the American Institute of Banking for several years, having acted as secretary of the Los Angeles chapter which entailed much work along educational lines.

From the easternmost point of the United States, West Quoddy Head, due west to the Pacific Ocean the distance is 2,807 miles.

## Ingle & Stone Offer New Radio Equipment

Radio enthusiasts will be pleased to learn that Glendale initiative and energy are helping to overcome the present shortage of radio equipment.

In connection with their Prest-o-Lite service station at 106 West Harvard street, Ingue & Stone are manufacturing rheostats, condensers, and the like, in quantities sufficient to supply many Los Angeles dealers. They are also turning out audion receiving sets complete. Mr. Ingle has just returned from Imperial Valley, where he booked orders for a large number of sets.

To help amateurs construct their own sets, machinery has been installed that will cut and drill panels, thread brass rods, and the like. Copper, magnet and resistance wire brass rods and tubing can be furnished in any quantity desired.

## Mrs. Charles Seger Is Kress Club Hostess

Mrs. Charles Seger was hostess on Friday to the members of the Kress club at a luncheon given at the home of Mrs. E. W. Evans, 1214 South Mariposa street. Following luncheon the afternoon was spent in needlework.

Those present included Mrs. F. A. Alspach, Mrs. William Alexander, Mrs. William Shafer, Mrs. Mark Fuller, Mrs. Clark Johnson, Mrs. D. B. Edwards, Mrs. Henry Stecker, Mrs. F. G. Hartman, Mrs. E. W. Evans and the hostess, Mrs. Seger.

## HE IS FOR ANNEXATION

City Manager W. H. Reeves yesterday received a visit from J. W. Fawkes of Burbank, who announced his candidacy for the office of county supervisor on a platform of Burbank's annexation to Los Angeles.

## Oldsmobile Sturdy Car, Asserts J. C. Pollock

When it comes to a sturdy car for the summer season out on the open road, J. C. Pollock, who has the Oldsmobile agency here believes there is nothing better. He says the Olds has stood the test of years and never been found lacking. There is a model now to suit every taste and the best recommendation of the new Oldsmobile is the fact that those who have owned one before are the first to get the latest.

One of the first 1923 Oldsmobile Super Sport models exhibited so far is being shown at the salesrooms, 208 West Broadway. The lower body lines, beautiful finish, many entirely new additions that make for comfort and economy of operation are very attractive. The new model is provided with individual steps which are larger than those found on most cars.

See Our New Glendale Building Material Exhibit

To Be Opened About
May 15th, 1922

Is Glendale growing? Well, I'll say!
There's something new here every day.
The latest that's offered, I'm sure you'll be glad,
Is a brand new exhibit, it's just quite the fad.

To see what you're buying, before it is bought,
So CHARLTON and BRAINARD have thought and thought,
How to satisfy clients, so as a first class beginner,
Glendale Building Material Exhibit is surely a winner.

It will be ready, say, about the middle of May,
We'll let you know later the very first day—
The fifteenth, we're hoping, or maybe before,
Just as soon as the varnish is dry on the floor.

Where is it? you say; oh, yes, on East Broadway,
One hundred eleven, you pass it each day—
"Central Building" they call it, and "Central" is right,
You'll be sure to find it, whether day time or night.

How Far Is It from Your Home?

Is your office and your home at "opposite ends of creation"? Couldn't you use your "going and coming" time to better advantage? "If I could have the quiet environment of my country home, and still be within 15 minutes of Broadway, I'd be interested—" you say.

Then you should buy a hilltop homesite in the Hills of Ivanhoe. To Broadway

From Ivanhoe Hills It's Only 3 Miles

*As a Place to Live*

where quietude, convenience and scenic beauty combine, even mountain resorts do not excel, these green hills encircling Silver Lake, Los Angeles' largest body of water. We pay for all improvements. Water is already in. You can start building immediately. Gas and electricity can be had on request. The Sierra Madres, from these hills, are sights of surpassing grandeur.

*Lots, $1,000 and up*

*As An Investment*

If you want to make money in real estate, buy ahead of highway developments. A program calling for vast expenditures in building and paving highways through Ivanhoe Hills has been perfected. Work will be started by the City of Los Angeles soon. These highways converge and cross the unit now selling. They include Griffith Park Blvd. (Childs Ave.), Hyperion Ave., and Rowena Ave. One will be a link of the Lincoln Highway, another part of a short cut from Pasadena to the ocean.

Don't You Tire of the Long, Long Road?

## SOME FACTS ABOUT CARBURETOR FOR YOU TO KNOW

### Information That May Prove Of Considerable Benefit In Caring for Car

The carburetor is the device which sprays the gasoline and mixes it with the necessary amount of air to make it burn in the combustion chamber of the engine very rapidly and with intense heat. This action is frequently spoken of as an explosion, but, in fact, it is not; it is simply rapid burning. The power in the gas engine is derived from the pressure caused by the great heat generated by the burning of the air mixed with the gasoline; it is not an explosion, but an expansion.

One cubic inch of liquid gasoline mixed with 8500 to 10,000 cubic inches of air makes a mixture which burns with a most intense heat, thus giving very high pressure in the cylinders and doing the most work. The temperature of the burning mixture frequently rises as high as 2700 degrees, Fahrenheit, and this gives a pressure of more than 350 pounds to the square inch. This pushes upon the piston and makes the engine work.

**Like an Atomizer**

Inside of the carburetor the gasoline is sprayed in about the same way that perfumery is sprayed by an atomizer. In fact, the gasoline and air mixture has the same appearance as it leaves the carburetor and is carried through the passage (manifold) to the cylinders as the fine vapor from an atomizer or throat sprayer.

The spraying of the gasoline and mixing it with air is caused by the air rushing in through the carburetor to fill the cylinder as the piston moves outward and creates a vacuum on the intake stroke, and if the speed of the engine were the same at all times there would be no trouble with carburetion. One of the laws of nature is that the faster air moves over a nozzle containing liquid the richer the mixture becomes, or the more liquid is taken up. The carburetor has been developed to overcome this law of nature and give a constant mixture at all engine speeds.

An automobile engine runs from about 200 revolutions to over 3000 revolutions a minute and at high engine speed with an open throttle the air and gasoline mixtures passes through the intake manifold at a speed of a mile a minute in some engines. The carburetor must supply a mixture at all speeds that has the proper proportions of air and gasoline. To accomplish this almost impossible feat, many different devices have been put on the market during the past twenty years, but about all that was done in the first half of that time was to prove that each device was imperfect and to point the way toward efficiency.

**Constant Quantity**

A carburetor must have a cup or bowl in which a certain quantity of gasoline is maintained. This is done by using a float which stops the gasoline from flowing by pushing a little

(Continued on Page 6)

## Woman Auto Driver Makes New Mark on S. F. to Portland Run

PORTLAND, Ore., May 6.—When Mrs. Z. Kathleen Ayers of San Francisco alighted from her automobile in the business center of Portland, she had established a new record.

From the time she boarded the San Francisco ferry until she stopped here, Mrs. Ayers spent exactly 22 hours and 43 minutes in traveling the 724.1 miles, lowering the previous record by three hours and eight minutes and beating the time of the Shasta train by five hours and 57 minutes.

Mrs. Ayers only stopped for fuel and oil en route.

## Radio Service Aids In Business Affairs

Spectacular deliveries by airplane of a year or two ago have nothing on the part that radio service is destined to play in business affairs in the near future. Such equipment is already being used with satisfactory results by the Millerburg Auto Electric company of Minneapolis and St. Paul to transmit business messages between their branch offices.

This company sent what is undoubtedly one of the first wireless orders received by a Cleveland manufacturer, it being forwarded through the American Radio Relay league to the Willard Storage Battery company a few days ago. A great many of the service stations of this company throughout the country are equipped with wireless receiving outfits and quite a few with transmitting sets as well.

An order for ten new Willard Radio batteries was sent from Minneapolis at 6 p. m. and first picked up in Cleveland about 8:30 by Station A. U. X. The operator there passed it to Station 8 B. B. Y., which is nearer the Willard offices where the message was copied and delivered. An acknowledgment of the order was "wirelessed" from the Willard company's radio laboratory (Station 8 C. J. S.) at 6 the next evening, through Station 8 A. U. X. and thence westward by way of Toledo. The men in the order department at the Willard offices say a radio order looks just like any other order on their books. They expect a great many more of the same kind before long.

## No Auto Show Now, Local Dealers Decide

At a meeting of the Glendale Automobile Dealers association Wednesday noon at the Glen Inn, by-laws were submitted by a committee and approved. A general discussion of trade questions was taken up with George Clayton presiding. It was informally decided that no auto show would be held in the near future.

When buying a used automobile first inspect the dealer before looking over the car.

## AUTO CLUB TELLS ROAD CONDITIONS TO FISHERMEN

### M. B. Towman of Local Office Gives Information Relative to State of Highways

For the benefit of Glendale parties going fishing, the following authentic information on roads to some of the favorite resorts is given by M. B. Towman, representative of the Automobile Club of Southern California with local offices at Brand boulevard and Colorado street where trips may be charted and additional information obtained:

**Sunland to San Fernando**—This road has been closed for the past months because of the high water in the Tujunga wash, across which a bridge has been under construction. It is anticipated that this bridge will be completed and the road entirely open to travel a week from today. In the meantime those seeking to fish in the waters of the Tujunga will have to use the Arroyo Seco road to Oakwylde, then hike to the upper waters of the Tujunga river.

**Topango Canyon**—Is still closed on account of a slide at the summit but will be again opened to traffic about May 25.

**Foothills to the North**—At Ojai, closed today for the season. Accommodations can be obtained, however, at the El Roblar Hotel and Pierpont cottages at Ojai.

**Brea Canyon**—Is passable but authorities do not want to encourage travel over it on account of newly laid concrete and the placing of shoulders.

**Mill Creek Road**—Opening date of this road indefinite. Possible to drive now within one mile of Seven Oaks. Here road is closed with bridge out.

**Mountain Springs Grade**—Letter received from W. N. Horn, deputy in charge of traffic at Mountain Springs grade stating the correct hours regulating work on the Mountain Springs grade are as follows:

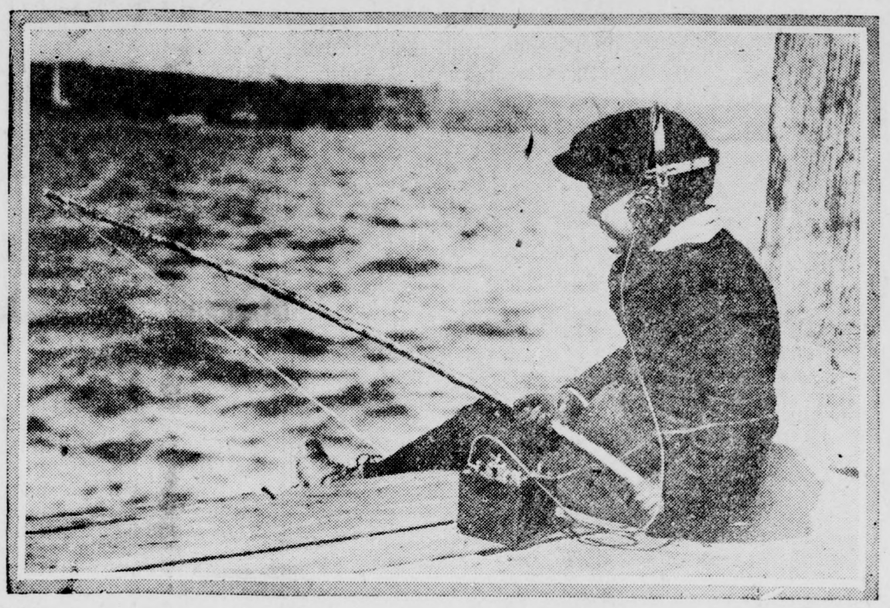
7:15 a. m.—Grade closes.
11:30 a. m.—Grade opens.
12:45 a. m.—Grade closes.
4:00 p. m.—Grade opens and remains open during the night. He further states that changes may be made from time to time as the work progresses on the grade.

**Laguna Mountains**—At the present time there is no forest ranger at Descanso station, but the supervisor's office in this city advises that due to the melting snow running down the road, it is now somewhat soft in spots over the upper half of the road. The road from the Junction to about three miles the other side of the first gate is in good condition, but traffic should not be recommended beyond that point until the run-off stops and road dries out a little more.

## Big Canadian Industries

Canada has ten companies manufacturing motor vehicles. Eighty thousand persons are employed in automobile plants in the Dominion, and indirectly 400,000 persons are involved in the industry. The capital invested in dealers' companies is $43,000,000, and in manufacturing companies $110,000,000.

## NO LONGER NECESSARY TO PITY 'POOR' FISHERMAN



Fishing is a great sport—but, gosh! how monotonous it is! This is the version of practically every disciple of Izaak Walton. To sit, hour after hour, holding a line, without any one to converse with, and to listen to the ripple of the waters, only to relax, now and then, to light up your pipe or to rebait your hook, surely is monotonous. It took little Frankie Dunn to solve this problem of the solitary fisherman. He is here shown with his rod in hand and his radiophone at his ear. There is one consolation—caution can be thrown to the winds, as far as scaring the fish is concerned.

## MAKE DESERT SAFE FOR AUTOIST, IS NOW PROPOSED

### Ghost Cities of West Will Soon Be Visited Without Danger, Auto Club Declares

Returning from an exhausting plunge into the wilds of Death Valley in search of the old Mormon trail and the famous lost wagons of the early pioneers, a crew of the Automobile Club of Southern California reports that preparations have been completed to make the desert safe for motorists.

Difficulties almost beyond belief were overcome by the club representatives in their endeavor to penetrate the desert to the north of the fateful valley. At one point it was necessary to hire horses to drag the car through a body of water known as Maynard lake.

Emigrant Gap, that famous passage-way through which some of the early wagon trains found their way to California from Utah was negotiated without difficulty, as was Red Rock canyon. In this vicinity, charting notes of all water-holes were taken.

**To Eliminate Danger**

The auto club is now preparing metal signs which will be used to mark the roads and water-holes of the desert, so that motorists can tour the "lost" regions without danger.

Good news for those who wish to visit the ghost cities of the west, those abandoned towns of the gold rush in Nevada, is contained in the club's announcement just made that a comprehensive map of that territory is being drafted. Some of these ghostly ruins included Bullfrog, Ballarat and Rhyolite.

The streets of these towns were once trod by thousands of gold-mad folk, and now they are deserted, the fine buildings falling to ruins and the pavement crumbling under foot. Occasionally a lone and decadent prospector is encountered, hoping against hope that he may be the one to find the lost lodes and to wallow in wealth during his declining years.

## Penny Wise and Pound Foolish Mars Highway

BUCYRUS, O. — The good roads subject is given a new angle by a situation just developed in this county. Under the new Ohio law the loads hauled over the roads is being restricted during the soft weather of spring. The Lincoln Highway through this county has been brick paved, twenty-two miles, except one mile between Bucyrus and Galion. This one mile was improved with a mixture of stone and asphalt, because the mile could be built about $10,000 cheaper.

The load restriction law limits the loads on the entire distance, thus depriving the road user of the quality purchased in twenty-one miles of road because of an economy in building one mile. The total investment was $750,000 in the whole road. There is no restriction on the twenty-one miles, but the load must be reduced 25 per cent on the one mile.

## Build Ideal Section

The "ideal section" of the Lincoln Highway is to be built under the supervision of Federal, State and county engineers and work is to be started at once. The section will be in Lake county, Indiana, between Dyer and Schererville.

**CARE OF NEW CARS**

New cars should be driven slowly for the first 1000 miles; never attempting a speed of more than 25 to 35 miles an hour. A thorough inspection should be made after each trip.

## Here Is Real Honest Owner of Motor Car

CHICO.—Here's a real, honest-to-goodness motorist.

W. J. Chittam appeared before City Marshal J. A. Peck at the police station and stated that his son had given the wrong turn signal while driving an automobile. Because of this, Chittam declared, an automobile following was steered into a telegraph pole and the windshield broken.

What Chittam came to Peck for was to find out if the driver of the other automobile had reported the accident.

"I want to pay for the windshield and any other damage done to the car," Chittam declared.

"Well, no one has reported anything about it yet," Peck said.

## Mountain Road Signs

Road signs at the tops of mountain grades in Maryland inform motorists of the number of miles down the mountain, warn of dangerous curves and give concise instructions how to drive to avoid accidents.

## Prosperity Smiles On Auto Industry, C. of C. Declares

DETROIT, Mich., May 6.—Complete return to prosperity was achieved by Detroit's automobile industry during April, the report of the national automobile Chamber of Commerce declared. More than 213,000 automobiles and trucks were delivered in the thirty days between March 31 and May 1. Prospects for the coming months are bright, the reports said.

## Big Order for Motors

What is believed to be the largest order on record, for motors was recently placed by a prominent automobile firm for 250,000 motors for four cylinder passenger automobiles, made to sell for $348.

## EXPERT GIVES SOME HELPFUL HINTS ON CARE OF CAR

### Follow These Tips and You Can Not Go Wrong, Is Asserted by One Who Knows

By A. SPARKE PLUGG

To add to the life of the springs and to afford additional riding comfort, lubricate well between the spring leaves. If no leaf wedge or spreader is at hand a screwdriver can be used by driving it between the leaves at a point near the end of each lower leaf. Use a thin oil, into which has been mixed a small amount of graphite, squirting between the leaves with a hand oiler, allowing the oil to drain toward the center of the leaf, removing screwdriver.

**Wobbly Wheels**

A slight wobble of a wheel of only one degree actually drags the tire sideways 920 feet in each 1000 miles, which causes excessive strain on the car as well as the tires.

**Oil on Garage Floors**

Garage floors, which are not kept clean and on which tires stand in a pool of oil, cause the tread to soften and the traction strain in service stretches the rubber in wavy outline.

**Decorative but Destructive**

Metallic club emblems, placed on the radiator, should be carefully fastened with leather or felt washers. Merely attaching them with bolts or wire will injure the cells of the radiator and cause a leak in the cooling system.

**Attention to Car Tops**

When cleaning the top of a car first of all give it a good dusting, and follow this up with a sponging of warm water and castile soap. A chamois skin kept especially for the purpose will hasten the drying.

**Spark Plugs**

Every time a spark plug is removed for cleaning a little graphite should be spread on the thread. This will permit the plugs to be set down to their limit without danger of destroying the threads, and at the same time the graphite will help prevent leakage of gas under compression.

**Cylinder Head Nuts**

The holding down nuts of the cylinder-head should be tightened periodically, if the cylinder-head is taken off for any reason. In replacing, the part should be tightened up again by screwing down opposite nuts. Each nut should be turned a little, then its opposite should be screwed somewhat, and so on, working around the cylinder-head. If one nut is tightened all the way there is danger of springing the part.

*Nash Leads the World in Motor Car Value*

NASH

IT is well worthy of emphasis that no other American car, so far as we know, is manufactured in its own plant to the degree that Nash cars are.

In exact figures, 93% of each Nash car begins and is carried through to completion in the great Nash plants. And even the 7% built elsewhere is produced precisely according to Nash standards and specifications and directly under Nash supervision and authority.

FOURS and SIXES

*Prices range from $1175 to $2725 f. o. b. Glendale*

NASH

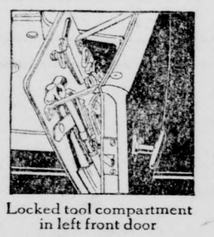
GLENDALE NASH SALES
Our New Address—112 South Maryland

Studebaker

SPECIAL-SIX

*Five-passenger, 50 horsepower, 119-inch wheelbase*
*Cord Tires Standard Equipment*

Talk to a SPECIAL-SIX owner and note his enthusiasm. Examine the car and you will see the reason. The SPECIAL-SIX possesses the qualities that make up true motor car value.



Locked tool compartment in left front door

There is power: a Studebaker-built L-head motor of 50 horsepower and wonderful flexibility.

There is economy: it has a reputation of staying out of the repair shop, as well as low cost of operation. At $1745 f. o. b. Glendale, the Special-Six is unapproached in value by any car of comparable quality.

There is comfort: genuine leather upholstered cushions, nine inches deep, and long semi-elliptic springs, front and rear. Leg room, without cramping, for five passengers.

There is beauty: a Studebaker-built body of harmonious lines and lustrous finish.

There are refinements: jeweled eight-day clock; one-piece, rain-proof windshield with windshield wiper; tonneau light with extension cord; transmission lock which reduces theft insurance rate to the owner 15 to 20 per cent; one key operates the thief-proof lock on transmission, ignition switch and tool compartment in left front door.

And there is Studebaker's reputation for fair dealing and seventy years' experience in building vehicles of honest quality.

Touring, $1745; 2-Passenger Roadster, $1695; 4-Passenger Roadster, $1745; 4-Passenger Coupe, $2495; Sedan, $2695. All prices f. o. b. Glendale

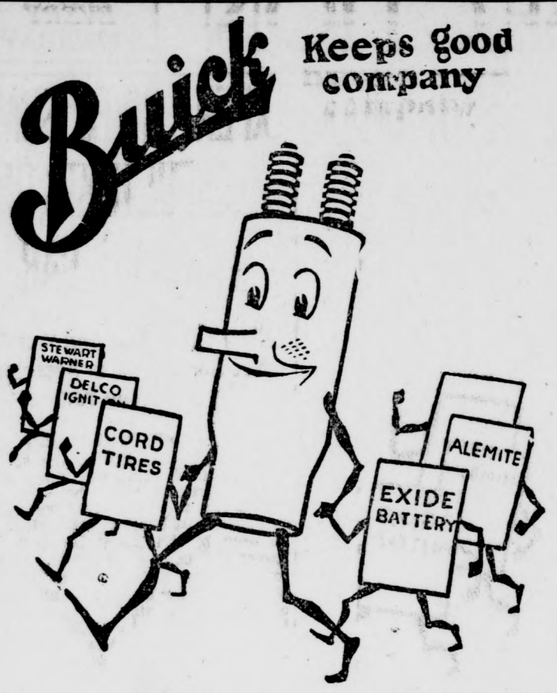
THIS IS A STUDEBAKER YEAR



When you own a **Buick** and get well acquainted with Mr. Valve-in-Head and his "side partners," you'll know you're in "a good live bunch." Every one of them does Valve-in-Head a good turn and they've got team work down to a science.

In the first place it's the easiest and cleanest thing in the world to keep Mr. Valve-in-Head perfectly lubricated and running smooth—Alemite tends to that, and for quick, sure starting and steady lighting power, you can always depend on the Delco Electrical System. Then there's the Exide Storage Battery—it helped win the war, and now it's helping **Buick** win the motoring public, and Cord Tires watch the economy end by taking Valve-in-Head over more miles for the money regardless of roads. When the **Buick** hits a long, steep, grade, it's just like going on the level, because the Stewart-Warner Vacuum Feed System guarantees the Special Marvel Carburetor an even flow of gas and the Valve-in-Head Motor provides plenty of smooth, uniform power at the point where other types wheeze and gasp.

Taking them altogether, it's as fine a bunch as anyone would want to ride with.

**Tanner & Hall Ltd**
MOTOR CARS
237 S. Brand Blvd. Glendale Cal.

Few cars have built such a solid, enduring reputation as the Hupmobile enjoys today.

Almost any man who seriously asks himself what he thinks about the Hupmobile will find, if he has ever given the matter any attention at all, that he has always held a high opinion of its value.

# SOME FACTS ABOUT CARBURETOR FOR YOU TO KNOW

## Information That May Prove Of Considerable Benefit In Caring for Car

(Continued from Page 4)

plug into the end of the pipe which carries the gasoline from the tank or reservoir to the bowl of the carburetor. From the bowl of the carburetor. From the float chamber there is a passage which permits the gasoline to flow to a nozzle which is inside of the passage through which the air rushes to the cylinder. The level of the gasoline in the float chamber is just below the top of the nozzle so no gasoline can run out of the nozzle when the engine is not working, but is high enough so that as soon as the piston moves and creates a vacuum, the gasoline flows out and mixes with the air on the way to the cylinder. In many carburetors there is a means of adjusting the nozzle so more or less gasoline can flow through it.

When the engine speeds up, the mixture through this device is too rich, too much gasoline for the quantity of air, and to overcome this tendency of the mixture to become richer, many different things have been tried. Among the most common means of thinning the mixture at high speed is to supply an opening in which there is a large air valve, held closed by a spring. As the engine speeds up, the increased vacuum causes the valve to open and permit air to flow into the carburetor and thin out the mixture which is too rich. By adjusting the stiffness of the spring a certain amount of control over the mixture is obtained at quite a wide range of engine speed. Practically all carburetors up to about eight or nine years ago embodied this principle in a more or less comprehensive manner, and even today there are some carburetors still making use of it.

## Buick Owners Lured By Call of Spring

"The Call of the Open Road" to Buick owners is a sure enough siren song.

Such is the opinion of "Bob" Ford, salesman at 237 South Brand boulevard, for Tanner & Hall, Ltd.

An attractive window display at this establishment during the past week has roused a longing in the hearts of many for the great outdoors. This depicts a camp in the midst of the woods. The tent, which has a canvas floor and mosquito-proof windows at the side, contains two canvas covered collapsible cots and an inviting canvas seated and backed folding arm chair. A well stacked pile of freshly split kindling stands nearby ready to be lighted. However, a gasoline stove with two burners is also on the job. Nearby is a fishing rod, a creel and a canteen. A placard announces the fact that the display is furnished by the courtesy of the Wilson-Bell Hardware company.

"How does the Buick get into the picture?" repeated Mr. Ford. "Easy enough! I made Big Bear Valley in my own car without any trouble. We went up there in six and a half hours without additional oil or water and on ten gallons of gasoline. During the entire trip it only used 17 gallons. Sure that was Monday—when we got the fish!"

## Thick in New England

The northeastern states, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, and Maryland, with an aggregate registration of 2,564,787 cars, have more than one-quarter of all the motor vehicles registered in the United States.

## *Help Reduce Number Of Accidents*

Now that the summer season of motoring has struck a stride, it is the painful duty of every known agency to urge SAFETY FIRST.

People hate preachments and many will not learn until they are crushed and mangled and marred for life or sent to jail, but—

The Automobile Club of Southern California has found it incumbent to initiate a public safety division; the city and county authorities find it necessary to expend great sums in making the highways safe and there is only one thing the motoring public can do.

That is—CO-OPERATIVE WITH EVERY EFFORT TO REDUCE THE NUMBER OF ACCIDENTS.

* * * *

Los Angeles city and county has hung up a new high record for automobile casualties in the first four months of this year. Just look at this score:

Persons killed, 126, or more than one a day!
Persons injured requiring hospital care, 1,640.
Machines damaged in 11,505 accidents, 9,865.
Estimated loss of property resulting, $295,950.

Ninety-five per cent of the automobile accidents are directly traceable to reckless drivers, the balance to incompetent handling of cars. Recklessness, as a rule, does not consist of minor infractions of traffic rules, but the "taking of long chances, sheer thoughtlessness and criminal carelessness."

* * * *

Here are a few Safety First thoughts which have come to hand:

Approach all crossings carefully. On approaching a grade crossing or busy intersection, shift into second gear. This will eliminate stalling the car and probably prevent a collision.

When overtaking and passing a car do not cut in again until about 50 feet ahead of the car just passed.

When negotiating a grade or curve do not jam the throttle too soon. Bad skids occur this way.

Put on skid chains at the first sign of wet weather. Sound the horn when there is any question of another driver or pedestrian not realizing what you are doing.

Drive within the speed limit and you are 99 per cent safe in case of an accident. And then APPLY THE GOLDEN RULE TO DRIVING if you would continue to enjoy the use of a motor car.

## Sturdy Old Coach Is Being Displayed Here

The contrast between nineteenth and twentieth century vehicles is exemplified this week in the salesroom at 245 South Brand boulevard of the Packer Auto Company. A dilapidated but sturdy weather-beaten stage coach stands side by side with a brightly polished powerful and luxurious automobile of the latest model. Both were constructed by the Studebaker Corporation of South Bend, Indiana, and both typify the highest engineering skill of their period.

The stage coach has been the object of a great deal of interest during the past week, according to Don Packer. He surmises that there must have been considerable commotion as it dashed lumberingly along the unpaved road between Canyon City and Hangtown or Placerville, California, during the sixties and seventies while its driver, perched high over the ground, flicked his whip over the backs of the six galloping horses and the six passengers within received jolts which today cannot be equalled by any automobile.

However, a large number of shocks were absorbed by unique cradle springs made of strips of leather about six feet long, two and a half inches wide and a quarter of an inch thick. A number of these were glued and pressed together into one compact whole which looks very much like a cradle spring of iron but has much greater elasticity. Two of these are attached to the front and rear under frame and support the floor of the coach.

Leather must have been very cheap in those days, in the opinion of those who have seen this stage coach. Besides the springs, leather is used also in a number of other places throughout the vehicle. The upholstery of the two seats is of this material and heavy leather straps hold up the driver's footboard.

A luggage rack occupies the roof of the coach and a large shelf for baggage protrudes from the rear. It was upon this extension that one visitor said he had gotten a lift on a similar vehicle when he ran away from home as a lad of twelve.

## Jail for 'Jaywalkers!' Is Threat of Judge

Pedestrians who make a habit of crossing streets at most any point other than the intersections in Glendale, had better profit by a warning issued by an eastern judge. Judge Alva R. Corlett of Cleveland, who threatened to send the "jaywalkers" along to the jail with the reckless drivers, according to a report from that city.

Judge Corlett proposed this course as a preventative against the large number of accidents which have happened recently. Because the great number of automobile accidents which happen in southern California, this way of dealing with the careless pedestrians might be an advantage here as well, police officials said.

## Much Stone for Roads

Federal aid roads, either completed or under construction in the United States at the end of the present fiscal year will require approximately 50,000,000 tons of stone and gravel for the making of 28,000 miles of highway.

**I. G. Cooley Motors Company**
**312 S. Brand. Glendale 566-W**

## Sixty Miles Per Hour In Ford! Hey, Judge!

How fast should a flivver fliv?

Jesse E. Smith of the Ford agency believes Henry makes 'em go well enough.

One young man had Winfield & Durand doll up his machine with some speed stuff and the first day out he was fined $100 for fifty-five miles an hour.

And that isn't all. This same firm is advertising another speed wagon for sale when the owner of a new Ford chassis couldn't keep the speed that was being attached.

"Sixty miles an hour or money back," is the guarantee given by Sam Durand.

## Six-Piece Orchestra to Play for Dances

Glendale citizens will have the pleasure of dancing to the music that entertained them through the radio a few days ago when Nat Janneu and his Imperial orchestra play at the Odd Fellows' hall, Monday night, May 8. There are six boys in the combination and each one is an artist.

They were called upon to play eight selections for the radio broadcasting station on Hamburger's roof in Los Angeles this week. If you didn't hear them, be on hand Monday evening and enjoy a real dance. If you did hear them you will sure be there.

In Palestine motor vehicle travel between Jerusalem and Damascus is becoming common.

## Careless Smokers In Autos Receive Blame

SACRAMENTO, May 6.—Cigar and cigarette stubs thrown carelessly out of automobiles caused greater fire loss in California during 1921 than any other agency, according to a report on fire prevention made by the state board of forestry to Governor Stephens. Drastic action is urged by the forestry board against autoists who start fires in this manner.

## Fred Deal Is Driving New Chevrolet Sedan

Telephone rates should go higher, the observing motorist noted this morning.

Fred Deal, manager of the Pacific Telephone & Telegraph company offices here, is driving a new Chevrolet sedan, purchased from C. L. Smith, local dealer, with temporary quarters at Broadway and Kenwood street.

Dru Nicoles, wire chief, also has a new car.

Extra tires not in use on the car should be kept in a dry, cool and dark place.

## Four Former Winners In Motor Sweepstakes

INDIANAPOLIS, Ind., May 6.—Four former winners of the 500-mile grind are on the list of thirty-two entrants made public today for the annual international motor sweepstakes race at the Indianapolis speedway May 30. They are: Ralph De Palma, "Howdy" Wilcox, Tommy Milton and Jules Goux.

Louis Chevrolet, owner of the winning cars in the last two races, has come forward with an innovation, entering two Fords—revised editions dubbed "fronty-Fords." One of these, according to plans, will carry a wireless outfit to receive instructions of the pits during the long dash. Wallace Reid, of movie fame, is to make his initial appearance in professional racing as a team mate of Ralph de Palma. One hundred thousand dollars in prizes will be split among the winners.

### VIBRATION, LOOSE NUTS

If a nut or bolt is found in the drip pan when working around the engine it has probably worked loose and it is wise to try to locate where it belongs. This is a further indication that screws, bolts and nuts should be tightened elsewhere around the car.

## C. A. Wishart Warns Buyers of Batteries

C. A. Wishart, local distributor for Westinghouse batteries, in a statement made last night, exposed a scheme which he says is national in scope to extract money from motorists' pockets by selling salvaged batteries made from parts of discarded ones under the representation that they are new and for prices only a little below the market price of standard batteries.

"The scheme, while old in fundamental principle, is new applied to automobile batteries," Mr. Wishart said, "and it threatens to become a serious problem to dealers in automobile supplies who are trying to give the buying public full value for money received."

According to Mr. Wishart, the salvaged battery concerns buy up all the used and discarded batteries they can find, take from them the parts that are still usable, add to them what new parts are necessary and sell them in freshly painted boxes for the real article.

When you buy the Westinghouse battery at their agency here at Colorado street and Glendale avenue, you are assured guaranteed service.

### Tire Stationary

There is one part of an automobile that remains stationary when the car is in motion. This part is the section of the tire on the ground, and is considered instantaneously stationary because it is touching the ground at the instant.

## W. H. Hooper Company Selling Ford Parts

In keeping with the service given by the William H. Hooper & Co., that firm has added a complete stock of Ford parts. Ford owners and mechanics will be glad to know where they can obtain anything in this line both evenings and Sundays as well as during the day. The Hooper service station is centrally located at Louise street and Broadway and is the Glendale distributing station for Miller, Michelin, Kelley-Springfield tires and tubes, and Vesta storage batteries, as well as a general line of accessories.

## Ask for Same Seats To See 500-Mile Race

INDIANAPOLIS — There have been more than 200 requests for the same section of seats by people planning to attend the International 500-mile race to be held here May 30. This is a record, according to T. E. "Pop" Myers, manager of the Speedway. Many requests are always received for the better seats, he said, but that never before had so many people wanted exactly the same location.

### FEAR AUTOS, THEY MOVE

Because seven automobiles have fallen over the embankment in front of their house, a family, living near a dangerous hill on a road outside Orange, N. J., has decided to move.

## Big Bear Lake Fish Bite Well, Is Report

Word comes from P. V. Potter, owner of Camp Potter on the shore of Big Bear lake, that the weather at this popular resort is ideal and the fishing is the best in several years. Quite in contrast to the several feet of snow still on the ground in the hills back from the lake is the lovely, warm spring weather with no trace of fog or dampness. The sun rises each morning on a very placid lake which finds a large number of fishermen trolling for gamey trout. Coats and sweaters are taboo throughout the day. The fish hatcheries receive a large number of visitors daily. Motoring and hiking are at their best and never were the beauties of Bear Valley so keenly enjoyed by all as at the present time.

Many limit catches of trout are reported daily. The fish are biting freely and even the novice can keep the frying pan working overtime. The trout are of unusual quality this year, rich in flavor, and a real treat to everyone. The water in the lake is the highest in years, now running over the spillway at the dam and has been for several months.

The desert route to Bear Valley via Victorville is in splendid shape. The Mill Creek road is rapidly being opened and the indications are that this route will be ready for travel in two weeks. When this road is opened visitors will still have the opportunity of seeing many deep drifts of snow by the roadside for even Old Sol, though getting in good work every day, cannot melt the huge drifts which were piled up during the recent unusually heavy winter along the crest of the San Bernardino mountains.

Many residents of Glendale have been and are now in Bear Valley for the fsihing and other sports and Camp Potter is entertaining its share of guests.

## Hupmobile Agency to Issue Metals Booklet

The local Hupmobile dealers, Bartlett & French, 603 South Brand boulevard, are having prepared in pamphlet form a series of lectures recently given by a representative of the metallurgical department of the Hupmobile factory to the different dealers in southern California, covering among other subjects the use of metals in the Hupmobile. It is a story shorn of bewildering technicalities, throwing light upon some of the things which, heretofore, might not have been fully recognized as elements contributing to accepted Hupmobile qualities.

These pamphlets will be distributed to all present, as well as prospective, owners of Hupmobile cars. Mr. French, of the local agency, states that this ought to explain in a measure to many curious people why so many Hupmobile cars of the vintage of 1909 and 1913, the low-swung chassis with the tall radiator cap, are still seen in active service.

## Metal In Nash Put In Electric Ovens

Women visitors at the Nash plant frequently marvel at the similarity of the heat-treating department to their own kitchens at home. Metals for use in automobiles are, as a matter of fact, heat-treated in electric ovens, much the same as bread or biscuits are baked, says E. B. Sutton, local dealer at 112 South Maryland avenue.

The housewife knows, for instance, that her dough mixture being perfectly blended only half the job of making bread is done. So the dough is put in containers and placed in an oven. There the heat must be uniform so that the baking is thorough. In the heat-treating department of The Nash Motors company is a big battery of electric furnaces, manned by experts in the art of "baking" metals so that each part will attain the exact degree of hardness necessary for its proper functioning in its subsequent use as a part of the finished automobile.

Each furnace is equipped with a pyrometer, a heat gauge, capable of registering degrees of heat far in excess of that which is possible by use of mercury. Parts that are sent into this department for heat-treating are scrutinized carefully at frequent intervals by the metal "cooks" in charge of the ovens. The factory metallurgical department, acting as a sort of master chef, provides the formula and makes microscopical tests constantly to determine the uniformity of the grain structure of the metal under treatment.

While the average housewife may not be entirely familiar with the effect of heat in various degrees upon dough, expert metal "cooks" must, of necessity, know exactly the status of their material at all times while it is undergoing heat treatment.

## New Series Maxwell Car In Big Demand

The new series of the Maxwell car, which was shown for the first time on November 15 of last year, has proven to be a bigger sensation than anything that was anticipated by the factory, according to Lyman P. Clark of the Glendale Motor Car company, 246 South Brand boulevard. The opening of the eastern market has developed a serious shortage in both the open and closed models of the new series Maxwell.

This condition has occurred regardless of the fact that less than 1 per cent of the people in this country have seen the new Maxwell. The wonder of everybody seems to be how the Maxwell company can build this car, with its beautiful body lines, long easy riding springs, disc wheels, cord tires, and other features found only in higher priced cars and still sell the Maxwell for $1070, delivered on the Pacific coast. The sale of Maxwell cars during the month of March, show an increase of about 100 per cent over the same month last year, Mr. Clark adds. He has found the present location entirely too small to take care of the volume of business which his firm is doing and will soon move into the new building at 124 West Colorado street.

## Over Ten Millions Motor Registrations

With returns received from all states, the bureau of public roads of United States department of agriculture reports that the motor vehicle registration for the year 1921 totaled 10,448,632. This represents an increase of more than a million over the 1920 figures, or a number equal to the total at the beginning of 1913.

The greatest increase in registration was in industrial sections. The total amount collected as fees of various kinds amounted to $122,478,654.

With more than ten million vehicles in use and the owners demanding improved roads over which to operate them the question arises as to how long the country will have to wait for a connected system of highways covering the whole United States, say officials of the bureau.

The recent federal highway act provided for a connected system of highways consisting of not more than 7 per cent of the roads in each state and made an initial appropriation of $75,000,000 to be used in conjunction with state funds. The system to be built is now being outlined and it will comprise about 180,000 miles of road included in which are about 60,000 miles already completed.

With an annual program based on a federal appropriation of $75,000,000, and assuming that the states will continue to match the federal funds in the same ratio as heretofore and that the average costs of the roads built will be $20,000 a mile, officials say it will take fifteen years to complete the proposed system.

# THE WORLD'S GREATEST NEED, more homes

## We Must Be a Nation of Home Owners

By DR. G. I. DEAN

The strength of our nation is expressed in our homes, the glory of civilization is founded on our homes, and about all the stability of our government depends upon Home Ownership.

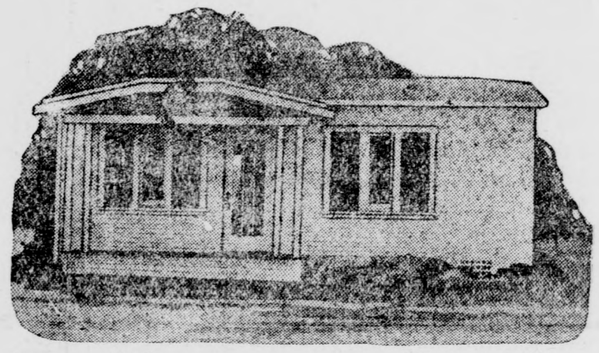
The desire to own a home is one of the natural instincts of every real man. A rented house can never become a real home in the highest, truest sense. No family can ever acquire that deep-seated regard and heart-felt affection for a rented house that is naturally developed toward a home which they own. What incentive is there for a man to preserve or adorn a rented house when he knows that his landlord may any day order him to vacate?

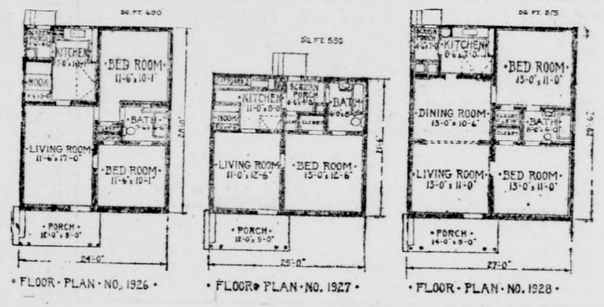
But, when the place which shelters him and his loved ones is their very own, when no one has the right to raise his rent or order him to move out, then every member of the family becomes inspired with love for the place in which they live; they become interested in its adornment and beautifying; every tree and flower and shrub which they add to its surroundings, every new day they live there, adds to the tender, loving associations entwined about it, until HOME becomes one of the sweetest words in human speech.

The gratifying of this deep-seated desire to own a home, and the toil and sacrifice and self-denial by which it is won, refines, elevates and ennobles men; it inspires in them a self respect and inspires in others a respect for them that makes them better men and better citizens, better husbands and fathers—gives them a standing and position and influence in the community that never can be attained by mere "tenants" or "renters."

The ideal home is a castle of genuine love—the tower of enthroned friendship, the cathedral of every pure joy, the walled city of every sacred relationship, the round-table of social communion for all the highest forms of human intercourse and intellectual exchange. There you will find a woman's heart, a husband's strength, a father's wisdom, and a child's awakening consciousness.

If, in your present vocation, you are not making money enough to provide for the future by building or buying a home for the sake of yourself and family, burn some midnight oil—do something else. We were not created as idle playthings, to fool our precious lives away. We were created for a great definite purpose, and that purpose is to be successes in every sense of the word. I do not believe that the Supreme Ruler of the Universe ever created a man to be a failure. The good things that are in this world were not put here to tantalize man, but for him to possess, providing he does his part. When you see people around you having homes, don't rave and blame the universe, the government, or bad luck. Just look to yourself, find out where the trouble lies, correct that trouble, put your goal high, and work with the determination to win that goal. If you do constructive thinking enough and work hard enough, you can attain that high ideal—The Ownership of Your Own Home.





PLANS NO. 1926, 1927 AND 1928

A little home with a variety of room arrangements, inexpensive to build, yet compact and conveniently arranged, that will help to combat high rents.

The same money you are paying out for rent will build one of these homes and will, in a short time, be your very own.

We are going to ask that you carefully study the room arrangements featured and by adopting one of them to build from you will be undertaking a transaction that will result in worth-while accomplishments and give perpetual protection to you and your family.

The Home Building Editor will gladly answer any questions you may care to ask.

THE WORLD'S GREATEST NEED,

# more homes

From every part of the world comes the cry—

**"More Homes"**

Individuals should arrange for homes to be built; investors should build homes for sale and rent; everyone who can possibly do so should see that their savings and surplus money are invested in mortgages, that this appalling condition may be successfully coped with.

If all of the material that can be manufactured were converted into homes it would be ten years before we could hope to fulfill the demands.

Our part in this home building drive is to furnish the building plans and dependable materials that each new home built will be modern, convenient, attractive and well built. You are to feel at liberty to advise with our Photographic Service at your convenience.

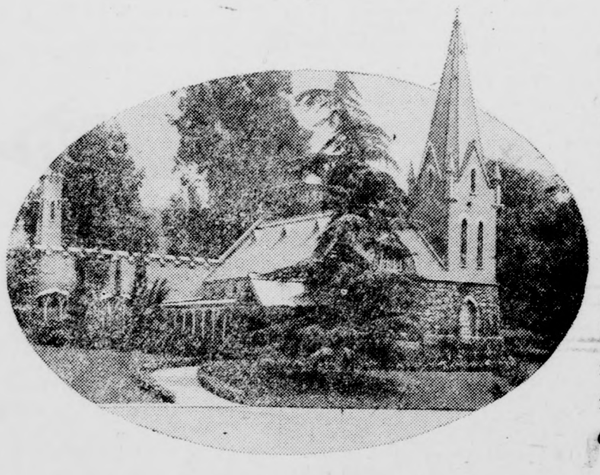
# Beautiful Forest Lawn

*"The City of Dreams"*

**"The Little Church of the Flowers"**



—The Mausoleum, the Crematory and the Conservatories are just a few of the many advantages offered by Forest Lawn —not ordinarily expected.

—Then, too, the lasting beauty of Forest Lawn is assured by the income from large perpetual care funds.

—Although of great natural beauty, the developments that have been added to its original attractiveness, have made Forest Lawn the most attractive park-cemetery in the country. The vista through the trees—rich, rolling lands, with their dark waves of green foliage, blending harmoniously with the warmer tints and colors of a hundred different varieties of flowers and shrubs —wins the instant admiration of every lover of beauty.

# SENIOR CLASS WINS ANNUAL CONTEST IN ORATORY

## Paul Hutchinson Awarded First Prize; Student Spirit Is Much In Evidence

(Continued from Page 1)

juniors. Girls were dressed as French provincial maids in red skirts, black bodices, white waists and white aprons. Boys wore regular civilian clothes, but each face was adorned with a diminutive Charlie Chaplin moustache a la Parisian.

The sophomore design was a floral piece in which an American flag on a green background was surmounted by an arch of red upon which was inscribed the word "Brotherhood."

**Talk by Fred Peck**

Fred Peck, orator for this class, spoke upon the subject: "The Social Obligations of Man."

The parable of the good Samaritan was carried out in the procession of the class which was led by Miss Emma Laura Cooper as America. The family of nations was illustrated in the costumes worn by the boys and girls.

The freshman tableau represented the goddess of liberty, gowned in white and supporting a torch standing before a rising sun of yellow marigolds to which were attached sunbeams of yellow streamers. A large American flag covered the lower part of the setting.

"Our Nation Today" was the topic of Donald McMillan, the freshman orator.

Boys of the class wore dark trousers and white sport shirts; the girls were dressed in white skirts and white middies with red sailor ties. Each carried a small flag. Their procession was headed by six Colonial minutemen before whom was carried the placard, "Makers of the Constitution." Another placard announced the fact "The Citizens of the Present Day Are Supporters of the Constitution."

Suspense was the feature of the speech of Francis Read, in which he announced the winner of the contest. For over ten minutes he kept his audience in a fever of excitement while he played upon its curiosity. Upon his official announcement of the prize winner, Paul Hutchinson was lifted upon the shoulders of his waiting classmates and he was given a rousing ovation.

**AUCTION WAY IS THE**

American way. Everybody is equal at an auction. Everybody has an equal opportunity. At auction you buy at a price you make yourself. Notice these bargains. Auction Tuesday 2 p. m., 3363 LaClede Ave., Atwater Park, new 5-room bungalow, lot 40x135, easy terms. Owner must sell; lives in east. Wednesday at 1 p. m. Fine residence and equipment, 1917 Gardena avenue, and five fine lots. Thursday, 2 p. m. A real home, 1544 10th St. Saturday, May 13th, 2 p. m., 317 W. Lexington. The one you have been looking for. Seeing is believing and will make you bid. The L. P. Joseph home, up-to-the minute. For quick results phone Broadway 246, Auctioneer Baird.—Advertisement 5-8

## Spanish Barbecue at Flintridge on Sunday

What promises to be one of the most elaborate and complete Spanish barbecue luncheons ever served at a public reception in southern California will be spread out beneath the majestic oaks of Flintridge Grove beginning at noon Sunday.

An invitation is extended to the general public to attend the affair and partake of the sumptuous free feast. Joe Romero, nationally famous as a barbecue specialist, will prepare and serve a complete assortment of deliciously barbecued viands.

The William Wilson company, sponsors of the famous Flintridge properties, will be the host. They announced that no expense has been spared either in the preparation of the luncheon or the efforts to make the visit to the propery enjoyable.

"Flintridge Grove offers a delightful place to spend a restful day with the family," said Michael Hallward, manager of the Flintridge properties for The William Wilson Company. "More than half this beautiful area —the last of the great Flintridge properties to be marketed at popular prices—was sold out on the opening day. There are not enough lots to supply all those who are interested, so there will be no urging on the part of salesmen. We are in a better position now to show Flintridge; that is why we want as many to come out Sunday as possible."

The entire area of Flintridge Grove is planted in full-bearing citrus and other fruit trees. The lots are all full-quarter acre size and every modern convenience and improvement is available. The property lies in the heart of Flintridge Gardens and overlooks the magnificent golf course of the Flintridge Country club.

## Make Arrangements for Opening Adams Street

With the opening of the second unit of Glendale Heights, the Haddock-Nibley company is making preliminary arrangements for the opening of Adams street, which now bisects its property, to the Verdugo Road.

During the first week of the sale fifteen lots were sold on Adams street and sales for the last week have aggregated a little better than $1500 per day, it is stated.

Arrangements have also been made with City Engineer Hill for the widening of Palmer avenue and the opening of the same to its junction with Tyler street. This gives an inviting approach of approximately 150 feet width at the entrance to the tract.

Contractor Peter L. Ferry has a large force of cement workers busy installing sidewalks on Green and Scofield streets and doing the preliminary work for the grading of Adams street the entire length of the property.

Two new houses were begun at Glendale Heights during the week and several others have announced their intention to begin construction work immediately.

To add to its development work, the Haddock-Nibley company will open on Sunday, May 7, its new property, Goldwyn Park. This property consists of thirty acres on Washington boulevard, just adjacent to the Goldwyn Studios in Culver City. It has a frontage of 1625 feet on Washington boulevard, and this is being cut into sixty-two business lots which, until the commercial demand develops, can be used as residence property. According to Mr. Haddock, this is the last remaining large piece of business property on Washington boulevard, in Culver City, and they anticipate a ready market.

## High Class Residence Section Being Marketed

According to the Ivanhoe Hills Realty Company, which is marketing a beautiful residential tract along Glendale boulevard, negotiations are under way for the construction of ten dwellings within the next sixty days.

The restrictions are such as to insure only high class residences and already twelve homes valued from $15,000 to $25,000 have been built in the vicinity. Greater building activity is confidently predicted for the fall when development work will be at its height in the northern section of Los Angeles.

However, now is the time to buy lots in Ivanhoe Hills it is pointed out, and many prospects from Glendale are reported considering the tract as an investment, for opportunities such as this come once in a life time.

A tusked wild boar ended a football match at Besancon, Switzerland, when it charged the players in the midst of a game. After running wildly about the field it was shot by a gendarme. The boar weighed 130 pounds and was later served to the players and their guests at a banquet. The game was declared a draw.

# Come Tomorrow ~ Sunday Noon

## Be Our Guests at the

# Big Barbecue

## Among the Oaks of

# Flintridge Grove

### A Joe Romero feast of barbecued meats with a menu of many delights. A glorious spread in a glorious setting.

We positively guarantee you a good time at this outing—and a worth while time as well. You'll enjoy the ride. You'll be captivated with Flintridge—now a glory of luxuriant green parkland—shrubbery and groves. And as you revel in the Flintridge environment, you'll feel the urge that has prompted hundreds to choose Flintridge as the place for their homes!

Half the lots at Flintridge Grove are sold. And Flintridge Grove is the last popular priced unit at Flintridge. With an orchard on practically every lot—each lot a quarter-acre with all improvements—gas, electricity, piped water, telephones available—Flintridge Grove offers an unparalleled home-buying opportunity.

## One Woman Puts It This Way--

Last Sunday Mrs. Jean Dreger of Redondo Beach, out with her family for a drive, quite accidentally rode through Flintridge Grove. Within fifteen minutes she was the owner of a quarter-acre lot—covered with orange trees and located in the most beautiful spot in Southern California. This is what she said:

"We have been looking for a lot for three months. I think we've seen about everything that is being offered, and I was thoroughly discouraged. High prices—small lots in low lying territory, and in the factory and fog belts at that. But when I saw Flintridge Grove, well—
"I JUST KNEW THAT HERE WAS THE PLACE I WANTED TO MAKE MY HOME. And, besides, I figure I've made a mighty good investment."

## She HAS Made a Good Investment

Lots in Central Place, just a short distance away, were first offered five months ago. Today they are re-selling at a $300 gain.

## OVER 50% PROFIT

See Flintridge Grove! See the investment opportunity it holds for you! To enjoy a delightful outing, and make sure you are in time to secure a site in Flintridge Grove

### Come Out to the Barbecue Tomorrow!

Motor cars leave Sunday morning at Eleven, from in front of the Pacific Mutual Building, Sixth and Grand.

Look for the Green Flintridge Pennants

If you drive your own car, come out via Pasadena, Linda Vista and Devil's Gate Dam — or through Glendale and Verdugo Canyon.

## Office Building for Brand Is Proposed

Architect Alfred F. Priest has completed plans and is taking bids for a 2-story brick store and office building on Brand boulevard, between Broadway and Harvard streets, for H. Blumenthal. Three stores, fifteen offices; press brick and terra cotta facing, plate-glass windows, marble bases, tiled vestibules, etc., are in the plans.

## TOURIST TRAVEL DELAYED

Automobile tourist travel from the east is delayed this year on account of the cold weather and snow and mud which makes motoring through the mountains this spring quite difficult, according to Will Robertson of the Glendale Auto Camp on San Fernando road at the foot of West Broadway. He now has twenty families in the camp, but expected that number to increase to 200 this summer.

## Eastern Stars' Card Party Much Enjoyed

A very delightful evening was enjoyed at the card party given at the Masonic Temple last night by the members of Glen Eyrie Chapter, Order of the Eastern Star, with over 100 members and their husbands present. Mrs. H. A. McPherson was chairman of the committee in charge of the party. First prizes at "500" were awarded to Mrs. Carroll and E. U. Emery, and consolation prizes to Mrs. Fred Deal and John Everson. Ice-cream and California fruit cake were served as refreshments.

The cow and the hen, always dependable stand-bys of our agriculture, have demonstrated their worth as reliable sources of income during periods of depression and returned good profits, according to the secretary of the Kansas state board of agriculture.

A registered letter from Russia recently arrived in Newark with 500 or more stamps attached to the back of the envelope by metal fasteners. The stamps exceeded $1,000 in value at the normal rate of exchange.

## Glenridge Subdivision Is Being Improved

E. L. Garretson and son are using a new and novel road grading machine, known as the P. & H. excavator in cutting new streets in a tract on East Cypress avenue which comprises four city blocks. It will be called Glenridge subdivision and will be ready for the market shortly. The Guillemin Investment company is handling the property.

## TO SUBMIT PROPOSITION

A dinner will be served Monday night to members of the city council, directors of the Chamber of Commerce and about 100 leading citizens at the Citizens' building banquet hall for the purpose of considering an important matter which the council wishes to place before the public. Invitations to the affairs are being received today.

SARCASM

Dad (sternly)—"Where were you last night?"

Son—"Oh, just riding around with some of the boys."

"Well, tell 'em not to leave their hairpins in the car."

## CHIEF SAGAMORE
CORNER BRAND AND COLORADO

*Points the Way*

to delightful home sites and profitable investments, on boulevard between Glendale and Los Angeles, only five blocks from 5 cent car line and four blocks from Colorado Boulevard.

## SAGAMORE PARK

Where critical and discerning people stop and admire. Where the western slopes, and sun light sifting through grand old eucalyptus trees appeal to all who appreciate perfect blending of color and contour.
Where Nature has been generous with her favors.
Just right for lovers starting in life.
Fine for parents with families to raise.
Perfect for old people who live in memories.
The ideal place to make dreams come true.

## Subdivision Beautiful

Most desirable of them all. Make reservations now. Small cash investment. Very easy terms. Profit in 90 days.

# SPECIAL ACT GIVEN WITH PROGRAM AT T. D. L. TODAY

## Vaudeville Number by Mack Sennett Comedians Sure to Amuse Audiences

Bud Ross and Dick Smith, Mack Sennett comedians, appearing in person at the T. D. & L. theatre tonight in their special vaudeville act, are a real treat—their act is comedy and never once can you doubt it, for it tingles with mirth and right smart acting from start to finish. They're a scream—a whole show in themselves—better go see and enjoy yourself.

"The American Beauty" is the appellation by which Miss Katherine MacDonald is known throughout the realms of motion picture fandom.

She is appearing in "Her Social Value," her latest picture creation-sensation. It is delightful, bright, romantic and full of interesting action.

**Sunday at T. D. & L.**

Every human heart beats the faster for romance. Every man, woman and child loves a love story, and when that love story is gorgeously staged the result is an irresistibly attractive production. Youth, beauty, love, folklore and legend. Nature in all her glory, ancient castles—all these are part of the fabric of "The Bride's Play" with Marion Davies, which is coming to the T. D. & L. theatre Sunday.

Marion Davies is seen in two roles in "The Bride's Play." She first appears as a delightful dark-haired Irish girl and later as a fair-haired girl of years ago in a legend which is unfolded before your eyes with all of the richness of a fairy's dream.

Also Harold Lloyd in his amusingly funny story, "Bride and Groom," is offered as an added attraction.

# Canyon Crest Property To Be Sold In Lots

Announcement is made by the J. Harvey McCarthy company, well-known real estate developers, of the purchase of the Canyon Crest Hospital property on East Wilson street, just off Broadway, and its addition to the original Eagle Glen Heights subdivision. The opening sale of lots is set for the coming Sunday, May 7.

In making the announcement of his latest piece of Glendale property, Mr. McCarthy says that the original Eagle Glen Heights tract, which adjoins the Canyon Crest land, has been practically disposed of in the ninety days that have elapsed since it was placed on the market.

Like Eagle Glen Heights, it is located on the lower slope of the San Rafael Hills, with a magnificent vista. Because of its close proximity to the site of the new $600,000 high school, on East Broadway, only one block away, and to the Broadway Grammar school, which is only three blocks distant, Eagle Glen Heights has had a special appeal to families with children of school age. For, as Mr. McCarthy points out, it is possible for a child to acquire an education from kindergarten to high school graduation, within three blocks of home.

The new addition to Eagle Glen Heights, Mr. McCarthy says, has been divided into lots of unusual size. Some of them have 50-foot frontages with a depth of 150 feet; while others are even larger, having frontages of 60, 70 and even 80 feet and depths that run to 200 feet. The same high class improvements that are being put into the original tract are to be installed in the addition to be opened on Sunday, including wide streets, paved sidewalks, curbs, gas, water, electricity, semi-tropic trees and ornamental street lights. A $7,500 building restriction has been placed on the lots, and no temporary structures of any kind are to be permitted.

# COMMENT
## THAT'S ALL

**How Come Shooting Matches?**
**Insufficiency of Evidence**
**Auto Industry Paramount**
**Pastor Plans Sunday Picnic**

By Gil A. Cowan

GOOD old fashioned shooting matches are being reported almost daily from down Oklahoma way. Texas and Arkansas add to the reports with a "bad man" bored here and there.

For those who have lived around Fort Smith or Wichita Falls or McAlester they will well remember the days when the sheriff put on his shooting iron and walked down the street to subdue someone who had promised to "get him."

Yes, those are the thrilling hours when a funny little feeling runs from the back collar button the rest of the way down the spine and you watch and wonder.

Then a "cannon" speaks, maybe once, maybe twice, and the undertaker's wagon comes rattling down the still street while about everybody else is scared to move an eyelash. And you don't do any pooh-poohing with the victor of the fray, either.

Just stand in the middle of such a scene some day, if you can, and you will understand the "how come" of it all.

Aha! The trickery of a woman lured Sally, the San Francisco monkey, back to her cage yesterday.

The pretty young animal trainer used Sally's nine-months old son as a decoy, tethering it in fashionable Sutro Heights, where its mother heard the shrieks and evinced the maternal interest necessary to engage her attention while the trainer worked.

She was wary of returning to her cage, however, and it required considerable physical effort to get the door slammed on Sally. Evidently, she doesn't believe in the monkey business used by show proprietors.

There is one federal judge who likely will not draw a large panel of prospective jurymen the next time alleged Volstead violation is tried in his court.

"Leave the bottle corked when you go out to find a verdict. You don't need to question its being real Scotch whisky," were his instructions, in the case of a bell boy caught peddling the stuff.

But the jury brought in a verdict of "not guilty."

Maybe the judge wanted that or the whisky. Who knows?

Among other things, Glendale's automobile industry is growing and hardly a day passes without the announcement of some change or the other.

New agencies, new tire and accessory stores, new buildings for older established firms, new models—always something new.

The automobile provides the largest industries in the United States and outside of building it stands paramount here, although you likely don't appreciate the fact.

There are more motor mechanics than doctors, more garages than hospitals, more motor car dealers than anything else, not excepting eating houses.

However, it will be admitted that the number of licensed real estate men here outnumber everything else, including teachers, which is sure going some.

One of the local pastors has suggested something that in time to come will be a popular custom.

After the morning services his flock is going to motor out into the everlasting hills and enjoy a picnic dinner in some shady nook where natural recreation can be had.

At eventide they will return to the roaring little city and gather for a tea cup hour and evening service. Certainly, it sounds like an ideal program.

**AUCTION SAVES YOU MONEY**

Don't build. Be at 1544 10th St., Thursday, 2 p. m. Beautiful home and contents. Auctioneer Baird sells it.—Advertisement. 5-10

# BOLEN REALTY COMPANY

115 West Broadway
Phones 1232 and 2163

EXCLUSIVE GLENDALE SALES REPRESENTATIVES FOR VERDUGO WOODLANDS, OUR CHOICEST RESIDENTIAL SECTION

Verdugo Woodlands is climatically and artistically the choicest residence property in Southern California, and, at present prices, will be the biggest money-maker. It is only a few years ago Hollywood building sites sold for as low as $1000 to $1500, that are now selling as high as $15,000 to $25,000. Verdugo Woodlands' future is brighter than Hollywood, because the natural beauty is superior and the "movie factory" is absent. We offer a selection of highly desirable home and villa sites at such prices and on such terms as to suit each purse. Also a few choice houses on terms to suit.

BOLEN REALTY CO., 115 West Broadway

# VARIED VAUDEVILLE, 'SCRAPPER' FILM GLENDALE TODAY

## Program of Merit Is Offered and It Includes Canine Circus—Lots of Fun

The vaudeville which plays the Glendale theatre today will prove a bill of high class. Price and Gilmore, "A Leap Year Proposal," present a pretty novelty intermingled with harmony selections and comedy patter that will make them a solid hit. Davis and Kone, in their original singing and comedy patter vehicle and Leonard and Germaine, in novelty songs and dances will add materially to the quality.

Frank and May Collins give "A Musical Melange" while Fox and Foxey present a comedy dog circus that will delight the kiddies of all ages. This act has played the Orpheum circuit eight times.

**About the Pictures**

Get a fine athlete and a dainty girl together and it's a mighty pleasing combination. Herbert Rawlinson, star of "The Scrapper," the Universal entertainment at the Glendale today is known as one of the really good athletes in filmdom, a "he-man" from way down yonder. His leading woman, Gertrude Olmstead, won a beauty contest in Chicago.

Jane Eyre came to the home of Fairfax Rochester, and her winsome ways and loving smile dispelled the shadow of the spectre that had lived in the Rochester home for many years. The picture of "Jane Eyre" which comes to this theatre for three days, beginning Sunday, presents a story of love and pathos the equal of which has seldom been offered the American public.

The Sammies' Sisters, Alberta and Lorene Davis, who have appeared in Glendale before, will be heard in concert with Paul Carson at the Sunday evening recital. News, Topics and Chats complete the bill.

# Arrange Program for Music Club Concert

The Glendale Music club members are looking forward with interest to the concert to be tendered them by club. The program to be given Tuesday night is as follows:

1. "Bridal Chorus" (Rose Maiden), by Cowen, to be given by the Burbank Choral Club.
2. "Heart of Mine" (Smith), male chorus.
3. "A Hundred Years from Now" (Bond), by Burbank Choral Club.
4. Baritone solos by Charles Leroy Munro.
   (a) "Thou Art My Harp" (Woodman).
   (b) "The Toreador" (Shelly).
5. "Nightfall in Granada" (Bueno), Burbank Choral Club.
6. "When the Roses Bloom" (Reichart), and "Rose of My Heart" (Lohr), by the Lyric Octette.
7. "Massa Dear" (Dvorak), by Burbank Choral Club.
8. Piano solo, "Rhapsody No. 11" (Liszt), by Mrs. Zephyr Algots Sparrow.
9. "O, Italia, Italia" (from Lucrezia), by Donizetti, by Burbank Choral Club.

The concert will be open to club members and their guests.

The westernmost point of the United States is Cape Alva, Wash.
